

IONIQ

Welcome to the future.

A future where our electric, hybrid, plug-in hybrid and hydrogen fuel cell vehicles contribute to a cleaner tomorrow. One in which future generations breathe more freely as vehicles use smarter, more sustainable technology and release fewer emissions.

Our vision is to deliver innovative technologies that lead the pollution-free mobility era by providing fuel efficient, and technologically superior green vehicles.

Driving innovation and delivering electric, hybrid, plug-in hybrid and hydrogen fuel cell vehicles that deliver impact is just one part of the story. We believe in the importance of driving change holistically, which is why we champion our partners in the automotive industry and the government to continue to work together towards zero emissions future for Australians and the world.

Pure Genius.

Everyone wants change, but not everyone makes it. That's why we've taken the future of mobility in our hands to produce the next generation of eco friendly motoring. Because a cleaner tomorrow means the journey to zero emission starts today.

A seductive mixture of technology and style, IONIQ offers three powertrains within one body type: Hybrid, Electric and Plug-in Hybrid.

As a ground breaking achievement, the focus is on combining efficiency, low emissions and outstanding performance. From start/stop city driving to long-distance trips, the IONIQ provides the perfect option for a variety of lifestyles.

One global problem. Three clever answers.

IONIQ is pure genius.

IONIQ Hybrid.

The IONIQ Hybrid combines technology with power to deliver a smooth driving experience. The electric motor and engine work seamlessly together to deliver plenty of torque when you need it most and maximum efficiency when cruising or at low speed.

The impressive Dual Clutch Transmission (DCT) places the IONIQ Hybrid at the forefront of innovation, delivering a smooth and enjoyable driving experience. It works with one clutch operating odd-numbered gears and the other operating even-numbered gears, giving you faster responsiveness and a more dynamic overall experience.

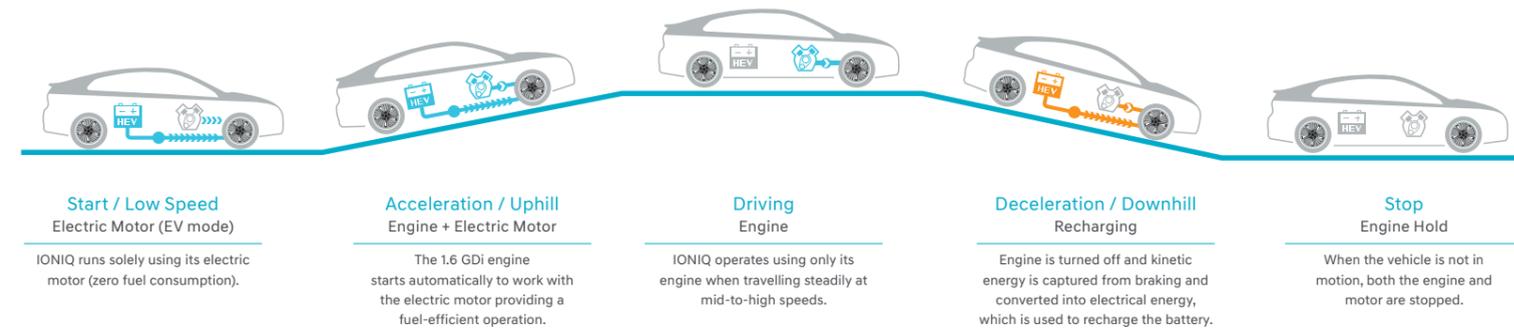

The IONIQ Hybrid's battery is recharged through regenerative braking, an innovative technology that captures kinetic energy whenever the brakes are applied or whilst the vehicle is coasting. By using the electric motor as a generator, the captured kinetic energy is used to recharge the lithium-ion polymer battery.

1.6L Atkinson-cycle GDI engine

32kW Hybrid electric motor

*Images shown reference examples of various driving scenarios. The performance of the Hybrid system is influenced by the driving style, the state of charge of the lithium-ion polymer battery, the route, the weather condition, the weight of the cargo and other external factors.

IONIQ Plug-in Hybrid.

The IONIQ Plug-in Hybrid combines the qualities of a conventional hybrid electric vehicle and an all-electric vehicle. With up to 63km¹ of pure electric range, it's ideal for commuting, local travel and those special long drives for holidays with additional activation of Hybrid mode.

With a fully charged battery, the IONIQ Plug-in Hybrid runs in electric mode by default. In this mode, the vehicle uses the electric motor primarily, and offers a driving experience similar to driving a pure electric vehicle. The petrol engine only runs when additional power or torque is required, such as driving up steep hills or under hard acceleration.

Hybrid mode is automatically activated when the lithium-ion polymer battery is depleted, or when manual mode (Sport drive mode) is selected. In this mode the vehicle functions as per the IONIQ Hybrid, and is driven primarily using the petrol engine power, and the electric motor providing additional assistance to achieve a combined hybrid system output of 104kW and 265Nm.

Approximate
charging time
2 hours 15 minutes²

¹ Range based on Australian Design Rule 81/02 static laboratory combined average city and highway cycle test (same as NEDC defined by UNECE R101/01), and may not reflect real life driving results. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. ADR 81/02 test results are meant for comparison purposes only.

² A 3.3kW charger is required to achieve this charging rate and charging times may increase if peak charging rates are not achieved.

IONIQ Electric.

Packed with innovative features and a choice of driving modes, the IONIQ Electric has everything the IONIQ Hybrid offers, along with a zero-emission driving experience. The powerfully responsive fully electric powertrain offers excitement and instant torque for reassuring acceleration, keeping you safe when overtaking and pulling out of junctions.

The IONIQ Electric utilises regenerative braking to great effect, charging your battery while you're on the move. Steering-mounted paddles allow you to adjust the regenerative braking strength. By using the left hand paddle, you'll increase the regenerative braking effect to put more power in the battery. Pull the right-hand paddle to decrease the regenerative level, coasting further to maximise efficiency.

City or motorway driving is no issue for IONIQ Electric, with a choice of Eco, Normal, Sport and all new Eco+ drive modes to ensure powertrain dynamics perfectly suit the road ahead. Eco mode optimises the performance of IONIQ by setting the controls to the most efficient balance. While Normal mode harmonises responsiveness and efficiency, Sport mode offers instant throttle response. The all new Eco+ drive mode maximises vehicle range by setting a 90 km/h speed limit, switching off the air conditioning, heating, and fans (user override-able), as well as optimising the default regenerative braking level.

With an 100kW electric motor connected to a 38.3kWh lithium-ion polymer battery, the IONIQ Electric gives you range of up to 311km¹ on a single charge, more than enough for your daily commute.

3 recharge options.

By plugging into a 100kW charger at a DC fast-charging station, a 80% recharge will take 54 minutes (or 57 minutes with the 50kW charger)². An AC charger at home overnight will take approximately 6 hrs and 5 minutes² for a full recharge. The emergency charging cable located in the boot, uses a standard 240V power outlet which takes longer to charge, so best to save this option for back-up situations.

Electronic gear shift button

Gear shift controls are where you naturally expect them to be, right at your fingertips on the centre console. With just one easy press and brake pedal depressed, you're in Drive / Park / Reverse.

¹ Figure based on WLTP (Worldwide Harmonised Light-Duty Vehicles Test Procedure) static laboratory combined average city and highway cycle test. Actual driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate condition.

² Charging times may increase if peak charging rates are not achieved.

Aerodynamic design.

The IONIQ range combines conventional and forward thinking in its car design, maintaining IONIQ's design purity from front to rear.

The sleek, smooth fast-back silhouette is more than just a design style; it's a scientifically developed form that creates a low drag co-efficient (Cd) of just 0.25.

The side sill mouldings¹ keep air close to its body, while the front wheel air curtains redirect turbulent air. The beautiful sloping fast-back style roof-line enhances the airflow even further, adding to a clean, stylish design that's built around aerodynamic performance.

Alloy wheels²

Aerodynamically sculpted to minimise air turbulence and deliver optimal fuel economy.

¹ Available on Premium variants only.
² Electric model alloy wheel shown.

LED Daytime Running Lights (DRL)

These uniquely shaped lights are activated during daylight hours to increase the visibility of your IONIQ Electric to other road users.

Front grille

The IONIQ Hybrid & Plug-In's floating three-dimensional mesh-type grille features computer-controlled shutters that open and close automatically to improve aerodynamics.

Dynamic driving.

The IONIQ range features steering wheel mounted paddle shifters which adjust the level of regenerative braking (and rate of deceleration), allowing drivers to minimise the use of physical brakes and therefore maximise efficiency. It's an innovative technology that captures kinetic energy whenever the brakes are applied or whilst the vehicle is coasting. By using the electric motor as a generator, the captured kinetic energy is used to recharge the high voltage battery.

Plug-in Hybrid & Hybrid models.

Electric model.

Paddle Shifters - Transmission control or regenerative braking control

Paddle Shifters - Regenerative braking only

Electric Premium model shown.

Effortlessly elegant.

Forward-thinking on the outside. Just as forward-thinking on the inside.

The IONIQ displays ultimate sophistication with every button, shape and line designed around the philosophy of clean simplicity.

At the heart of it all sits a flat-bottomed steering wheel that bring an air of sportiness to the design. The abundance of premium soft-touch finishes, coupled with a slim crash pad design that emphasises interior space, adds a modernist luxury touch.

To further bolster the green credentials of the IONIQ range, eco-friendly materials have been utilised in various interior components. Sugar cane by-products account for 25% of the raw materials used in the soft-touch door trim panels, whilst recycled plastic, powdered wood, and volcanic stone contribute to 10% of the eco-friendly plastics used on other interior surfaces. Furthermore, bio fabrics have been used to create the headliner and carpet material, with sugar cane by-products accounting for 20% of the raw materials.

Supervision cluster with trip computer & digital speedometer²

Features a high resolution TFT LCD that provides information including energy flow, battery state and Eco drive info.

Dual zone climate control³

Allows the driver and front passenger to set independent climate zones, ensuring most comfort for all occupants.

Glass sunroof⁴

When the weather is perfect, open up the sunroof to enjoy the open sky and fresh air.

¹ Finishes specified as leather may contain elements of genuine leather, polyurethane leather (leather substitute) or man-made materials, or a combination thereof.

² 4.2" for Hybrid Elite and Plug-in Hybrid Elite, 7.0" for Hybrid Premium, Plug-in Hybrid Premium, Electric Elite and Electric Premium.

³ Available on Hybrid and Plug-in Hybrid models only.

⁴ Available on Premium variants only.

Always connected.

As a contemporary car in every way, the IONIQ places connectivity right at its heart.

The 10.25" multimedia touchscreen with Apple CarPlay™¹ and Android Auto™² compatibility takes the things you like doing with your smartphone while driving and puts them on your extra-large built-in display. Make calls, send and receive messages, listen to music and more, all in a way that helps keep you stay focused on the road.

The IONIQ's satellite navigation system is available as standard across the range, so it will make it hard to take a wrong turn. It also includes a 'Charging Station' category, allowing you to identify nearest Type 2 charging stations from your location.

Wireless smartphone charging³

Recharge your smartphone devices with the wireless smartphone charging pad.

Electronic Parking Brake (EPB) with Auto Hold⁴

You can apply the handbrake at the touch of a button. Auto Hold function automatically maintains braking pressure once the vehicle has been brought to a complete stop. The brakes are then released once the driver steps on the accelerator pedal.

Smart key with push button start

Keep your keys in your handbag or pockets. Just one push of a button whilst depressing the brake pedal will start your car.

¹ Apple CarPlay™ functionality requires software update. Apple CarPlay™ requires iPhone® 5 or above and/or subsequent model (lightning cable) in order to operate. Apple® and iPhone® are registered trademarks of Apple Inc.
² Android™ Auto requires a device with Android 5.0 or above operating system or subsequent version in order to operate. Android™ is a registered trademark of Google.
³ Wireless smartphone charging requires a Qi-enabled smartphone or adapter to operate. Available on Premium variants only.
⁴ Not available on Hybrid Elite variant.

Help keep you safe.

The IONIQ's safety features befit such an advanced model. A combination of advanced technologies and preventative innovations help keep you on track.

This includes 7 airbags and Hyundai SmartSense™¹ safety technology including Forward Collision-Avoidance Assist (FCA) - City/Urban/Interurban/Pedestrian, Lane Keeping Assist - Line (LKA-L), Blind-Spot Collision Warning (BCW), High Beam Assist (HBA), Lane Following Assist (LFA)², Rear Cross-Traffic Collision Warning (RCCW), Driver Attention Warning (DAW) and Smart Cruise Control (SCC)² with Stop & Go.

Rear View Monitor w/ Parking Guidance (RVM w/ PG)

The Rear View Monitor (RVM) system allows you to continually monitor the road conditions behind the vehicle. The Parking Guidance function takes all the stress out of parking, by displaying guide lines that swivel automatically as the steering wheel is turned whilst reversing.

7 airbags

Includes dual front airbags (driver and passenger), front side (thorax) in driver and front passenger, full-length side curtain airbags and driver's knee airbag.

Blind-Spot Collision Warning (BCW)

If a vehicle is present in the IONIQ's blind spot, BCW provides a visual alert with an audible warning sound should the driver begin to indicate to change lanes.

Lane Keeping Assist - Line (LKA-L) & Lane Following Assist (LFA)²

LKA-L alerts you when you unintentionally stray away from your lane. LFA will help keep you safely centred in your lane by detecting lane markers and providing steering assistance whenever Smart Cruise Control is operating and the vehicle speed is less than 180km/h.

Smart Cruise Control (SCC)² with Stop & Go

SCC monitors vehicles ahead of you and helps maintain a safe distance to the vehicle ahead up to a pre-set speed. The Stop & Go function allows SCC to work in stop/start traffic, bringing the vehicle to a complete stop when appropriate, and automatically accelerate back up to the original set speed.

Recharge at home or on the move.

With all the economic benefits that come with electric power, possibly one of the most important efficiencies is the speed and ease at which the battery charges. Take advantage of cheaper off-peak electricity rates by simply plugging in and scheduling your preferred charging times.

The IONIQ Plug-in Hybrid has an on-board charger of 3.3kW and takes just 2 hours and 15 minutes¹ to fully charge.

The IONIQ Electric boasts a 7.2kW on-board charger that takes just 6 hours and 5 minutes¹ from empty to 100% charge using a 7.2kW charging port. On the move, compatible DC rapid chargers will allow you to charge your IONIQ Electric up to 80% in as little as 54 minutes¹ using a 100kW charger².

On both the Plug-in Hybrid and the Electric, three LEDs on the top of the dashboard gradually light up when it's successfully plugged in so you can check its charging status from outside.

Charging on-the-move

DC Charger (CCS Combo 2)
IONIQ Electric only.

Charging speed: Rapid
Connection to car: CCS Combo 2
Estimated charge times (100kW):
54 minutes (to 80% of the charge)
Estimated charge times (50kW):
57 minutes (to 80% of the charge)

AC Charger (Type 2)
IONIQ Electric and Plug-in Hybrid.

Charging speed: Normal
Connection to car: Type 2
Estimated charge times:
Electric: 6 hours 5 minutes (to fully charge, 100%)
Plug-in Hybrid: 2 hours 15 minutes (to fully charge, 100%)

AC Charger (Type 2)
IONIQ Electric and Plug-in Hybrid.

Charging speed: Normal
Connection to car: Type 2
Estimated charge times:
Electric: 6 hours 5 minutes (to fully charge, 100%)
Plug-in Hybrid: 2 hours 15 minutes (to fully charge, 100%)

Emergency Charging Cable
IONIQ Electric and Plug-in Hybrid.

Charging speed: Trickle/Slow
Connection to car: Type 2
Estimated charge times:
Electric: approximately 17 hours 30 minutes (to fully charge, 100%)
Plug-in Hybrid: 6 hours (to fully charge, 100%)

¹ Charging times may increase if peak charging rates are not achieved.

1. All Hyundai Genuine accessories are subject to warranty conditions. See your nearest Hyundai Dealer or visit www.hyundai.com/au/en for full warranty terms usage. 2. Suitable for non Apple® devices, such as MP3 players. 3. Only suitable for use with a retractable seatbelt. 4. Available for Electric and Plug-in Hybrid only. The product can only be installed by a licensed contractor, or a licensed electrician in accordance with all applicable state, local and national electrical codes and standards and in a location with non-restricted access. Before installing the product, please review the product manual carefully and consult with a licensed contractor or licensed electrician Use appropriate protection when connecting to the main power distribution cable. 5. Only use the charging cable that is suitable for your electric vehicle. The manufacturer takes no responsibility for defects associated with a faulty charging unit or vehicle. Suitable for use indoors and outdoors, including in light rain conditions. Not suitable for use in other rain conditions. Do not submerge in water. Do not allow minors to operate. Please check compatibility with the supplier before using.

Car finance that puts the choices in your hands.

Hyundai CarPlan™ has been developed by Hyundai Finance™ to give you flexibility. That includes whether you pay a deposit or not, how long the finance contract runs for (36 or 48 months), and what happens at the end of your finance contract. At the end of your finance contract, you can choose to pay any amounts owing on the contract to keep your Hyundai, return your vehicle to us and use the Guaranteed Future Value¹ to meet any amount owing under the finance contract, or trade it in at your preferred Hyundai dealer and continue your journey with us.

It's a smart and flexible way to have the vehicle that's perfect for you, even as your lifestyle changes. Life's full of surprises and while you won't always know what's around the next corner, with Hyundai CarPlan™ you'll always have the right car for the journey there. Keep it, return it, or trade it in.

The choice is yours.

How does Hyundai CarPlan™ work?

First, you choose the car you want².

Then, choose the deposit you wish to pay, the length of the loan term and the kilometres you will travel each year³.

Next, decide what you want to do with the vehicle at the end of the finance period⁴.

The choices are up to you.

So what do I actually have to do?

- Arrive at the dealership with your 100 points of ID
- Choose the Hyundai model you want
- Choose the contract term - 36 or 48 months
- Choose how many kilometres you're intending to travel each year up to a maximum of 25,000km – the amount you travel affects the value of your vehicle at the end of the term. You can choose 10,000, 15,000, 20,000 or 25,000km per year
- Choose if you want to pay a deposit or not
- Your dealer will let you know what your regular repayments will be and what the Guaranteed Future Value will be⁵. That's the future trade-in value, based on the length of the loan and the kilometres you will drive. The value is subject to Fair Wear and Tear conditions and agreed kilometres not being exceeded¹
- When you get to the end of the loan term, you choose what happens next

When your contract ends.

We know that everyone's lifestyle and situation is different, so we give you three different options to choose from when your contract comes to an end: pay off the balance of your loan contract and keep your Hyundai, trade it in or return it to us and use the Guaranteed Future Value¹.

It all depends where you are at that point in your life. Sport, kids, dogs, weekends away, work. Choose what's right for you and your life. Go bigger, go smaller, stay the same.

Get the Hyundai that's right for you.

Trade

Trade in your Hyundai at your preferred Hyundai dealer giving you the chance to step into the latest Hyundai model and continue your journey with us.

Retain

Keep your Hyundai by paying any amounts owing on your finance contract or apply through Hyundai Finance™ to refinance the amount owing².

Return

Return your Hyundai to us knowing that the Guaranteed Future Value will be sufficient to repay the amount owing under your finance contract¹.

Hyundai Finance™ and Hyundai CarPlan™ are registered trademarks of Hyundai Motor Company used under sublicense by St.George Bank – A Division of Westpac Banking Corporation ABN 33 007 457 141 Australian credit licence 233714. Hyundai Finance is the registered business name of Hyundai Motor Company Australia Pty Ltd ABN 58 008 995 588.

1. The Guaranteed Future Value is not a representation by Hyundai Finance™ as to the likely market value of your vehicle as at the end of your finance contract. If the Guaranteed Future Value applies and the vehicle is not returned in an acceptable condition, as defined in the terms and conditions or exceeds kilometre restrictions, the Guaranteed Future Value will be reduced and you'll be required to pay the difference. Subject to the Guaranteed Future Value Terms and Conditions (available upon request). 2. The feature is available on all new and demonstrator Hyundai vehicles on selected models only. IONIQ Electric Elite and Electric Premium are not eligible. Please verify with your dealership which vehicles are eligible for the programme. 3. Please read the full terms and conditions. Please consider whether these products and services are appropriate for your circumstances. Before acting on any of the information in this brochure, please seek independent tax advice. Full terms and conditions are available upon application. 4. Subject to the Guaranteed Future Value Terms and Conditions. Available only to approved applicants of Hyundai Finance™. Subject to credit assessment and for consumer applications, responsible lending criteria. Fees and charges apply. Fleet, government, rental buyers, hire car and chauffeur companies are excluded. Available at participating Hyundai dealers. 5. Your total interest charged may be higher if you choose the Guaranteed Future Value feature for your loan, compared to a loan without the feature.

How is Hyundai CarPlan™ different from a typical finance contract?

Greater confidence

Hyundai CarPlan™ will ensure the amount you receive when you return your Hyundai is enough to pay the amount owing at the end of your contract term, even if the value of the car is less than the amount owing¹.

A personally tailored solution

You choose the term for your finance contract, the deposit you would like to pay (if any) and the kilometres you intend to travel².

Greater flexibility

At the end of the finance contract term, you'll have the choice to keep your Hyundai, trade it in or return it to us.

More options

You have the option to include things like Pre-Paid Service Plan³, and accessory costs as part of your finance contract⁴.

Maintaining your vehicle.

To ensure you enjoy the full benefits of the Hyundai CarPlan™, your Hyundai must be in an acceptable condition when you return or trade-in your Hyundai⁴ and must not exceed the kilometre limit you have selected. Of course, we also understand that some reasonable wear and tear is to be expected, but the condition of your vehicle needs to remain within the provisions of your Hyundai CarPlan™ contract and Fair Wear & Tear Guidelines.

Where the vehicle is not in acceptable condition or where you have exceeded your kilometre limit, the Guaranteed Future Value of your vehicle will be reduced.

Is Hyundai CarPlan™ right for you?

Hyundai CarPlan™ is just one of many options available from Hyundai Finance™, so there may be another product that suits your individual needs better. Have a chat to your participating Hyundai Dealer about what's right for you.

Hyundai Finance™ and Hyundai CarPlan™ are registered trademarks of Hyundai Motor Company used under sublicence by St.George Bank – A Division of Westpac Banking Corporation ABN 33 007 457 141 Australian credit licence 233714. Hyundai Finance is the registered business name of Hyundai Motor Company Australia Pty Ltd ABN 58 008 995 588.

1. The Guaranteed Future Value is not a representation by Hyundai Finance™ as to the likely market value of your vehicle as at the end of your finance contract. If the Guaranteed Future Value applies and the vehicle is not returned in an acceptable condition, as defined in the terms and conditions or exceeds kilometre restrictions, the Guaranteed Future Value will be reduced and you'll be required to pay the difference. 2. Please read the full terms and conditions. Please consider whether these products and services are appropriate for your circumstances. Before acting on any of the information in this brochure, please seek independent tax advice. Full terms and conditions are available upon application. Available only to approved applicants of Hyundai Finance™. Subject to credit assessment and for consumer applications, responsible lending criteria. Fees and charges apply. Fleet, government, rental buyers, hire car and chauffeur companies are excluded. Available at participating Hyundai dealers. 3. Pre-paid Service Plan: for scheduled maintenance services only which are of limited scope. Pre-paid service plan may be purchased at the time of vehicle purchase or at any time up to and including the first scheduled service. Terms, conditions and exclusions apply. Visit www.hyundai.com/au/en/pre-paid. 4. The feature is available on all new and demonstrator Hyundai vehicles on selected models only. IONIQ Electric Elite and Electric Premium are not eligible. Please verify with your dealership which vehicles are eligible for the programme.

Relax, we'll take it from here.

Owning a car should be an enjoyable, easy experience. So we built Hyundai iCare around that one simple idea and it's why comprehensive ownership benefits come standard with every one of our cars.

Our five-year, unlimited kilometre warranty¹ means you've got the freedom to go ahead and drive without having to keep an eye on the odometer.

Imagine knowing the maximum price of your next scheduled service, before pulling into the service centre. That's the advantage of our Lifetime Service Plan² – a clever Hyundai initiative that gives you transparency and peace of mind for the life of your car.

Since every new Hyundai is built to the highest standards, we've got the confidence to offer comprehensive customer service without exception. And that includes Sat Nav Update Plan³, and a 24/7 Roadside Support Plan⁴ for up to ten years when you service with us.

Servicing has never been easier or more convenient, with simple online bookings, fast 'while-you-wait' services, and a range of alternative transport options.

It's all designed to help you get the most out of your journey us.

The IONIQ range comes with an 8-year/160,000km warranty (whichever occurs first)⁵ on its lithium-ion polymer battery, giving you that peace of mind when you are driving your IONIQ.

iCare

1. **5 year/unlimited km warranty:** Applies to new passenger vehicles used for private/domestic purposes. Excludes vehicles used at any time for "commercial application" as defined in the vehicle warranty policy, for which a 5 year/130,000km (whichever occurs first) warranty applies. Refer to full warranty terms & conditions for details and exclusions. 2. **Lifetime Service Plan:** For the benefit of Hyundai owners, Hyundai provides online quotes which specify the maximum price applicable for a vehicle's next scheduled maintenance service at a participating authorised Hyundai dealer and using genuine Hyundai parts (where required). Online quotes are available at www.hyundai.com/au/en, apply for a stated effective period only and may change after that effective period without notice. Standard scheduled maintenance services are of limited scope. The benefit of online quotes is available for all Hyundai vehicles, for their lifetime. 3. **Sat Nav Update Plan:** Maximum number of 9 updates delivered on an annual cycle which must be undertaken within 10 years of the vehicle's purchase. Map updates are included only if the vehicle completes a scheduled service at a participating Hyundai dealer. 4. **Roadside Support Plan:** Receive 12 months Roadside Support when you purchase a new Hyundai passenger vehicle (excluding rental buyers). Further Roadside Support extensions are available, each for 12 months from the date of a scheduled maintenance service at a participating authorised Hyundai dealer (unless vehicle is more than 108 months (9 years) from the original new car sale date, in which case entitlement to Roadside Support ends when vehicle reaches 120 months (10 years) from original new car sale date). 5. Covering defects in material and workmanship for the original vehicle battery.

IONIQ

Big help, for little Aussies.

Every time a new car is sold at one of our Dealerships, both Hyundai and the Dealer will donate part of the sale price to Hyundai Help for Kids™.

Hyundai Help for Kids™ offers funding to child-focused organisations and charities working to improve the lives of children all over Australia – from supporting community initiatives, to providing much-needed medical equipment.

So when you buy a Hyundai, you're buying more than just a car. Together with Hyundai Help for Kids™ you're empowering thousands of young Australians and giving them a better future.

Hyundai Help for Kids™ is a registered trademark of Hyundai Motor Company.

Australia, in our DNA.

We're one of the biggest car manufacturers in the world – and one of the fastest growing global car brands.

We're also the only car company in the world producing its own steel, because we know the best steel makes for the strongest cars.

That's why we source the majority of our high quality iron ore from right here, in Australia's backyard. So now, when you buy a new Hyundai, you know you're driving a car that's directly connected to home.

a. Based on Australian Design Rule 81/02 static laboratory combined average city and highway cycle test. Real world fuel consumption will vary depending on a combination of driving habits, the condition of the vehicle, and other factors such as road, traffic and weather conditions. ADR 81/02 test results are meant for comparison purposes only.

b. Range based on Australian Design Rule 81/02 static laboratory combined average city and highway cycle test (same as NEDC defined by UNECE R101/01), and may not reflect real life driving results. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. ADR 81/02 test results are meant for comparison purposes only.

c. Figure based on WLTP (Worldwide Harmonised Light-Duty Vehicles Test Procedure) static laboratory combined average city and highway cycle test, which measure, energy consumption, range and emissions in passenger vehicles, designed to provide figures closer to real-world driving behaviour. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions.
