

IONIQ

BLUE-DRIVE

Welcome to the future.

A future where our electric, hybrid, plug-in hybrid and hydrogen fuel cell vehicles contribute to a cleaner tomorrow. One in which future generations breathe more freely as vehicles use smarter, more sustainable technology and release fewer emissions.

Our vision is to deliver innovative technologies that lead the pollution-free mobility era by providing fuel efficient, and technologically superior green vehicles. We call this vision: Blue-Drive.

Driving innovation through Blue-Drive, and delivering electric, hybrid, plug-in hybrid and hydrogen fuel cell vehicles that deliver impact is just one part of the story. We believe in the importance of driving change holistically, which is why we champion our partners in the automotive industry and the government to continue to work together towards zero emissions future for Australians and the world.

IONIQ

Pure Genius.

Everyone wants change, but not everyone makes it. That's why we've taken the future of mobility in our hands to produce the next generation of eco friendly motoring. Because a cleaner tomorrow means the journey to zero emission starts today.

A seductive mixture of technology and style, IONIQ is the first to offer three electrified powertrains within one body type: Hybrid, Electric and Plug-in Hybrid.

As a ground breaking achievement, the focus is on combining efficiency, low emissions and outstanding performance. From start/stop city driving to long-distance trips, the IONIQ provides the perfect option for a variety of lifestyles.

One global problem. Three clever answers.

IONIQ is pure genius.

IONIQ Hybrid.

The IONIQ Hybrid combines technology with power to deliver a smooth driving experience. The electric motor and engine work seamlessly together to deliver plenty of torque when you need it most and maximum efficiency when cruising or at low speed.

The impressive Dual Clutch Transmission (DCT) places the IONIQ Hybrid at the forefront of innovation, delivering a smooth and enjoyable driving experience. It works with one clutch operating odd-numbered gears and the other operating even-numbered gears, giving you faster responsiveness and a more dynamic overall experience.

There are two driving modes to suit your style, including Sport mode, which combines electric and engine power for a reactive and thrilling drive. Eco mode optimises fuel economy and efficiency for a different style of driving.

The IONIQ Hybrid's battery is recharged through regenerative braking, an innovative technology that captures kinetic energy whenever the brakes are applied or whilst the vehicle is coasting. By using the electric motor as a generator, the captured kinetic energy is used to recharge the lithium-ion polymer battery.

Kappa 1.6L Atkinson-cycle GDi engine

32kW Hybrid electric motor

*Images shown reference examples of various driving scenarios. The performance of the Hybrid system is influenced by the driving style, the state of charge of the lithium-ion polymer battery, the route, the weather condition, the weight of the cargo and other external factors.

IONIQ Plug-in Hybrid.

The IONIQ Plug-in Hybrid combines the qualities of a conventional hybrid electric vehicle and an all-electric vehicle.

When used as a conventional hybrid electric vehicle, the HEV computer selectively operates between the engine and the electric motor – or even both at the same time – depending on the level of power required to travel. With a fully charged battery, the IONIQ Plug-in Hybrid runs in electric mode by default. In this mode, the vehicle uses the electric motor primarily, and offers a driving experience similar to driving a pure electric vehicle. The petrol engine only runs when additional power or torque is required, such as driving up steep hills or under hard acceleration.

Hybrid mode is automatically activated when the lithium-ion polymer battery is depleted, or when manual mode (Sport drive mode) is selected. In this mode the vehicle functions as per the IONIQ Hybrid, and is driven primarily using the petrol engine power, and the electric motor providing additional assistance to achieve a combined hybrid system output of 104kW and 265Nm.

¹ Range of 63km is based on Australian Design Rule 81/02 static laboratory combined average city and highway cycle test (same as NEDC), and may not reflect real life driving results. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. ADR 81/02 test results are meant for comparison purposes only.

² A 3.3kW charger is required to achieve this charging rate.

IONIQ Electric.

The electric experience of the IONIQ Electric will surpass your expectations. Take it for a spin and admire its performance attributes on the open road. Smooth to drive, whisper quiet and best of all, generating absolutely zero emissions - IONIQ Electric offers you the perfect transition to zero-emission electric driving.

The IONIQ Electric utilises regenerative braking to great effect, charging your battery while you're on the move. Steering-mounted paddles allow you to adjust the regenerative braking strength. By using the left hand paddle, you'll increase the regenerative braking effect to put more power in the battery. Pull the right-hand paddle to decrease the regenerative level, coasting further to maximise efficiency.

Customisation of drive modes is made easy through the 8" touchscreen allowing you to adjust the maximum speed, climate control and the default level of regenerative braking.

With an 88kW electric motor connected to a 28kWh lithium-ion polymer battery, the IONIQ Electric gives you a real world range of up to 230km¹ on a single charge, more than enough for your daily commute.

Fast charge port (CCS Combo2)

For maximum flexibility and convenience, IONIQ Electric comes equipped with the Combined Charging System, Type 2 charging port that is also compatible with standard AC Type 2 connector. With this port, you can achieve an 80% charge in as little as 23 minutes² from when connected to a compatible 100kW DC fast charger.

Electronic gear shift button

Gear shift controls are where you naturally expect them to be, right at your fingertips on the centre console. With just one easy press and brake pedal depressed, you're in Drive / Park / Reverse.

¹ Range of 230km is based on Hyundai testing under optimum driving conditions. Actual driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate condition.
² Charging times may increase if peak charging rates are not achieved.

Aerodynamic design.

The IONIQ range combines conventional and forward thinking in its car design, maintaining IONIQ's design purity from front to rear.

The sleek, smooth fast-back silhouette is more than just a design style; it's a scientifically developed form that creates an incredibly low drag co-efficient (Cd) of just 0.24.

The side sill mouldings keep air close to its body, while the front wheel air curtains redirect turbulent air. The beautiful sloping fast-back style roof-line enhances the airflow even further, adding to a clean, stylish design that's built around aerodynamic performance.

Alloy wheels¹

Aerodynamically sculpted to minimise air turbulence and deliver optimal fuel economy.

LED puddle lights in side mirrors²

These handy lamps will always be appreciated when stepping out of the vehicle in a dark spot.

Rear bumper³

Two-tone bumper has a piano black insert to add a sporty touch and provide continuity with the front end design

¹ Plug-in Hybrid 16" alloy wheel shown.

² Available on Premium variants only.

³ Grey grille colour options available on IONIQ Electric models only.

Dynamic driving.

The IONIQ range proves that low-emissions, alternative propulsion vehicles can be energetic, fun and engaging to drive.

With generous system outputs, and the advantage of instant, electric motor torque, the single-speed, battery-only IONIQ Electric, and the petrol/electric IONIQ Hybrid and Plug-in are lively and responsive to drive.

Every IONIQ benefits from an Australian-specific localisation programme, developed over thousands of kilometres of local on-road testing. Through the extensive localisation process, the IONIQ is made to offer exemplary comfort, control, and ride quality whilst delivering dynamic capabilities proving that green vehicles can also be fun-to-drive.

Overseas model shown.

Effortlessly elegant.

Forward-thinking on the outside. Just as forward-thinking on the inside.

The IONIQ displays ultimate sophistication with every button, shape and line designed around the philosophy of clean simplicity.

At the heart of it all sits a flat-bottomed steering wheel with spokes that bring an air of sportiness to the design. Leather gear knob adds to its modernist luxury feel.

To further bolster the green credentials of the IONIQ range, eco-friendly materials have been utilised in various interior components. Sugar cane by-products account for 25% of the raw materials used in the soft-touch door trim panels, whilst recycled plastic, powdered wood, and volcanic stone contribute to 10% of the eco-friendly plastics used on other interior surfaces. Furthermore, bio fabrics have been used to create the headliner and carpet material, with sugar cane by-products accounting for 20% of the raw materials.

Supervision cluster with 7" colour LCD display¹

Features a high resolution TFT LCD that provides information including energy flow, battery state and Eco drive info.

Dual zone climate control²

Allows the driver and front passenger to set independent climate zones, ensuring utmost comfort for all occupants.

Glass sunroof³

When the weather is perfect, open up the sunroof to enjoy the open sky and fresh air.

¹ Available on Hybrid Premium, Plug-in Hybrid Premium, Electric Elite and Electric Premium.

² Available on Hybrid and Plug-in Hybrid models only.

³ Available on Premium variants only.

Satellite navigation

Overseas model shown.

Always connected.

As a contemporary car in every way, the IONIQ places connectivity right at its heart.

Designed with your lifestyle in mind, the IONIQ ensures that you can take a trip and always stay connected. When it comes to accessing your music easily, you'll have an impressive level of choice thanks to Bluetooth^{®1}, Apple CarPlay^{™2} and Android^{™3} Auto compatibility. You can create a perfect synergy between your life on and off the road by utilising the selected apps on compatible Apple and Android phones.

The IONIQ's satellite navigation system is available as standard across the range, so it will make it hard to take a wrong turn. It also includes a 'Charging Station' category, allowing you to identify nearest Type 2 charging stations from your location.

Overseas model shown.

Wireless smartphone charging⁴

Recharge your smartphone devices with the wireless smartphone charging pad.

Heated & air ventilated front seats⁵

You can warm your seats in cooler weather or activate ventilation during the warmer months.

Push button start

Keep your keys in your handbag or pockets. Just one push of a button whilst depressing the brake pedal will start your car.

⁵ Available on Premium variants only.

Help keep you safe.

The IONIQ's safety features befit such an advanced model. A combination of advanced technologies and preventative innovations help keep you on track.

This includes 7 airbags and Hyundai SmartSense™ safety technology including Lane Keeping Assist (LKA), Blind-Spot Collision Warning (BCW), Forward Collision-Avoidance Assist (FCA), Rear Cross-Traffic Collision Warning (RCCW) and Smart Cruise Control (SCC).

Forward Collision-Avoidance Assist (FCA)

Rear view camera

This handy safety feature takes all the stress out of parking and driving in reverse, by providing a clear wider view and dynamic guide lines.

7 airbags

Includes dual front airbags (driver and passenger), front size (thorax), full-length side curtain airbags and driver's knee airbag.

Blind-Spot Collision Warning (BCW)

If a vehicle is present in the IONIQ's blind spot, BCW provides a visual alert with an audible warning sound should the driver begin to indicate to change lanes.

Lane Keeping Assist (LKA)

Alerts you when you unintentionally stray away from your lane. Also provides gentle steering guidance to keep you centred in the lane.

Smart Cruise Control (SCC)

Monitors vehicles ahead of you and helps maintain a safe distance to the vehicle ahead up to a pre-set speed.

Hyundai SmartSense™ is a registered trademark of Hyundai Motor Company. Safety features are not a substitute for attentive driving.

Recharge at home or on the move.

With all the economic benefits that come with electric power, possibly one of the most important efficiencies is the speed and ease at which the battery charges. You'll benefit from charge scheduling, where you can choose to charge immediately or set a departure time so the IONIQ can prepare the car with maximum efficiency.

The IONIQ Plug-in Hybrid has an on-board charger of 3.3kW and takes just 2 hours and 15 minutes¹ to fully charge.

The IONIQ Electric boasts a 6.6kW on-board charger that takes just 4 hours 25 minutes¹ from empty to 100% charge using a 7kW charging port. On the move, compatible DC rapid chargers will allow you to charge your IONIQ Electric up to 80% in as little as 23 minutes¹ using a 100kW charger².

On both the Plug-in Hybrid and the Electric, three LEDs on the top of the dashboard gradually light up when it's successfully plugged in so you can check its charging status from outside.

Charging on-the-move

Not suitable for use in other rain conditions. Do not submerge in water. Do not allow minors to operate. Please check compatibility with the supplier before using.

CarPlan.

The smarter way to finance your new Hyundai.

Life's full of surprises and while you won't always know what's around the next corner, with Hyundai CarPlan™ you'll always have the right car for the journey there. It's a smart and flexible way to have the vehicle that's perfect for you, even as your lifestyle changes.

Hyundai CarPlan™ has been developed by Hyundai Finance™ to provide flexibility at the end of your finance contract, letting you enjoy the new Hyundai experience again and again. At the end of your finance contract you can pay any amounts owing on your finance contract to keep your Hyundai or trade it in at your preferred Hyundai dealer to step into the latest Hyundai model and continue your journey with us. The choice is yours.

In a nutshell.

1.
Choose your
Hyundai model

Visit a participating
Hyundai Dealer and
select an eligible new or
demonstrator Hyundai¹
that best suits
your lifestyle.

2.
Choose an eligible
finance solution

You can choose your
desired finance contract
term of 36 or 48 months
and the kilometres you
intend to travel up to a
maximum of 25,000
per year.

Our fixed rate loans are
available with or without
a deposit – whichever
suits you.²

3.
We'll then
tell you:

- How much your regular payments will be over the finance contract term.³
- The Guaranteed Trade in Value for your new Hyundai. The Guaranteed Trade in Value is the value of your new Hyundai at the end of your finance contract as determined by Hyundai Finance™ subject to Fair Wear and Tear conditions and agreed kilometres not being exceeded.
- We'll also give you a copy of the Fair Wear & Tear Guidelines, setting out the condition requirements you'll need to maintain over the finance contract term to avoid any adjustments to your Guaranteed Trade in Value under the GTV terms.⁴

It's all about choice.

We know that everyone's lifestyle and situation is different, so we give you two different options to choose from when your contract comes to an end: keep your Hyundai, or trade it for a brand new one¹ knowing your Guaranteed Trade in Value.

1.

Keep your Hyundai by paying any
amounts owing on your finance
contract or applying through
Hyundai Finance™ to refinance the
loan residual balance.

2.

Trade in your Hyundai at your
preferred Hyundai dealer and
apply for another Hyundai CarPlan™
giving you the chance to step into
the latest Hyundai model and
continue your journey with us.

1. The feature is available on all new and demonstrator Hyundai vehicles on selected models only. Please verify with your dealership which vehicles are eligible for the programme.
2. Please read the full terms and conditions. Please consider whether these products and services are appropriate for your circumstances. Before acting on any of the information in this brochure, please seek independent tax advice. Full terms and conditions are available upon application. Available only to approved applicants of Hyundai Finance™ Subject to credit assessment and for consumer applications, responsible lending criteria. Fees and charges apply. Fleet, government, rental buyers, hire car and chauffeur companies are excluded. Available at participating Hyundai dealers.
3. Your total interest charged may be higher if you choose the Guaranteed Trade in Value feature for your loan, compared to a loan without the feature.
4. The Guaranteed Trade in Value is not a representation by Hyundai Finance™ as to the likely market value of your vehicle as at the end of your finance contract. If the Guaranteed Trade in Value applies and the vehicle is not returned in an acceptable condition, as defined in the terms and conditions or exceeds kilometre restrictions, the Guaranteed Trade in Value will be reduced and you'll be required to pay the difference.

How does Hyundai's new CarPlan differ from typical Hyundai financing?

Greater confidence

Hyundai CarPlan™ will ensure the amount you receive on trade in satisfies the final repayment, even where the value of the trade in is less than the final repayment amount¹. If the trade in valuation is higher than the Hyundai CarPlan™ value, the difference can be used as equity towards your new or demonstrator Hyundai when you purchase it².

A personally tailored solution

You may decide on the term for your finance contract, the deposit you would like to pay (if any) and the kilometres you intend to travel.

Greater flexibility

At the end of the finance contract term, you'll have the choice to keep your Hyundai, or trade it for a brand new one².

More options

You have the option to include things like Pre-Paid Service Plan³, insurance and accessory costs as part of your fixed-rate loan agreement.

Maintaining your vehicle.

To ensure you enjoy the full benefits of the Hyundai CarPlan,™ your Hyundai must be in an acceptable condition when you are trading it in for your new Hyundai² and must not exceed the kilometre limit you have selected. Of course, we also understand that some reasonable wear and tear is to be expected, but it needs to remain within the provisions of your Hyundai CarPlan™ contract and Fair Wear & Tear Guidelines.

Where the vehicle is not in acceptable condition or where you have exceeded your kilometre limit, the Guaranteed Trade in Value of your vehicle will be reduced.

Is Hyundai's new CarPlan right for you?

Hyundai CarPlan™ is just one of many options available from Hyundai Finance,™ so there may be another product that suits your individual needs better. Have a chat to your participating Hyundai Dealer about what's right for you.

1. The Guaranteed Trade in Value is not a representation by Hyundai Finance™ as to the likely market value of your vehicle as at the end of your finance contract. If the Guaranteed Trade in Value applies and the vehicle is not returned in an acceptable condition, as defined in the terms and conditions or exceeds kilometre restrictions, the Guaranteed Trade in Value will be reduced and you'll be required to pay the difference.

2. The feature is available on all new and demonstrator Hyundai vehicles on selected models only. Please verify with your dealership which vehicles are eligible for the programme.

3. Pre-Paid Service Plan: for scheduled services only, including parts. Does not include fair wear and tear items. For full terms and conditions visit hyundai.com.au/pre-paid

The Hyundai CarPlan from Hyundai Finance is a feature which ensures you receive the Guaranteed Trade in Value (determined by Hyundai Finance) at the end of the term of your contract when you trade it in at a participating Hyundai Dealer in accordance with the terms and conditions.

To exercise the feature your vehicle must be inspected and assessed by a participating Hyundai dealer at the end of the term of your finance contract. Adjustments to the value may apply. You receive the Guaranteed Trade in Value for the car if you exercise the feature at the end of the term and purchase a new or demonstrator Hyundai at the same time. The amount you receive on trade in will satisfy the final repayment, even where the trade in is less than the repayment amount.

Relax, we'll take it from here.

Owning a car should be an enjoyable, easy experience. So we built Hyundai iCare around that one simple idea and it's why comprehensive ownership benefits come standard with every one of our cars.

Our five-year, unlimited kilometre warranty¹ means you've got the freedom to go ahead and drive without having to keep an eye on the odometer.

Imagine knowing the maximum price of your next scheduled service, before pulling into the service centre. That's the advantage of our Lifetime Service Plan² – a clever Hyundai initiative that gives you transparency and peace of mind for the life of your car.

Since every new Hyundai is built to the highest standards, we've got the confidence to offer comprehensive customer service without exception. And that includes Sat Nav Update Plan³, and a 24/7 Roadside Support Plan⁴ for up to ten years when you service with us.

Servicing has never been easier or more convenient, with simple online bookings, fast 'while-you-wait' services, and a range of alternative transport options.

It's all designed to help you get the most out of your journey us.

The IONIQ range comes with an 8-year/160,000km warranty (whichever occurs first)⁵ on its lithium-ion polymer battery, giving you that peace of mind when you are driving your IONIQ.

iCare

1. **5 year/unlimited km warranty:** Applies to new passenger vehicles used for private/domestic purposes. Excludes vehicles used at any time for "commercial application" as defined in the vehicle warranty policy, for which a 5 year/130,000km (whichever occurs first) warranty applies. Refer to full warranty terms & conditions for details and exclusions. 2. **Lifetime Service Plan:** For the benefit of Hyundai owners, Hyundai provides online quotes which specify the maximum price applicable for a vehicle's next scheduled maintenance service at a participating authorised Hyundai dealer and using genuine Hyundai parts (where required). Online quotes are available at hyundai.com.au, apply for a stated effective period only and may change after that effective period without notice. Standard scheduled maintenance services are of limited scope. The benefit of online quotes is available for all Hyundai vehicles, for their lifetime. 3. **Sat Nav Update Plan:** Maximum number of 9 updates delivered on an annual cycle which must be undertaken within 10 years of the vehicle's purchase. Complimentary map updates apply only if the vehicle completes a scheduled service at a participating Hyundai dealer. 4. **Roadside Support Plan:** Complimentary 12 months Roadside Support when you purchase a new Hyundai passenger vehicle (excluding rental buyers). Further Roadside Support extensions are available, each for 12 months from the date of a scheduled maintenance service at a participating authorised Hyundai dealer (unless vehicle is more than 108 months (9 years) from the original new car sale date, in which case entitlement to Roadside Support ends when vehicle reaches 120 months (10 years) from original new car sale date). 5. Covering defects in material and workmanship for the original vehicle battery.

IONIQ

Big help, for little Aussies.

Every time a new car is sold at one of our Dealerships, both Hyundai and the Dealer will donate part of the sale price to Hyundai Help for Kids™.

Hyundai Help for Kids™ offers funding to child-focused organisations and charities working to improve the lives of children all over Australia – from supporting community initiatives, to providing much-needed medical equipment.

So when you buy a Hyundai, you're buying more than just a car. Together with Hyundai Help for Kids™ you're empowering thousands of young Australians and giving them a better future.

Hyundai Help for Kids™ is a registered trademark of Hyundai Motor Company.

IONIQ

Australia, in our DNA.

We're one of the biggest car manufacturers in the world – and one of the fastest growing global car brands.

We're also the only car company in the world producing its own steel, because we know the best steel makes for the strongest cars.

That's why we source the majority of our high quality iron ore from right here, in Australia's backyard. So now, when you buy a new Hyundai, you know you're driving a car that's directly connected to home.

a. Based on Australian Design Rule 81/02 static laboratory combined average city and highway cycle test. Real world fuel consumption will vary depending on a combination of driving habits, the condition of the vehicle, and other factors such as road, traffic and weather conditions. ADR 81/02 test results are meant for comparison purposes only.
b. Range based on Australian Design Rule 81/02 static laboratory combined average city and highway cycle test (same as NEDC defined by UNECE R101/01), and may not reflect real life driving results. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. ADR 81/02 test results are meant for comparison purposes only.
c. Real-world range based on Hyundai testing under optimum driving conditions. Actual driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate condition.
