Hyundai new vehicle warranty policy and period.

Unlimited kilometre warranty.

Hyundai motor vehicles are manufactured using high quality materials and progressive engineering technology in conjunction with advanced quality control techniques.

Hyundai provides a 5 year unlimited kilometre warranty against defects arising in materials or manufacture for all passenger vehicles* other than vehicles used at any time during the warranty period for commercial application^.

Consumers will have rights and remedies in addition to the warranty provided in this booklet. This warranty should not be read as excluding, restricting or modifying the rights and remedies of consumers under statute, such as the *Competition and Consumer Act 2010*.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

For the period of sixty months, following the date of first registration or delivery of the vehicle to the original retail owner whichever comes first, Hyundai warrants that the vehicle originally manufactured shall be free from defects arising in workmanship or materials of the mechanical and electrical components of the vehicle subject to the conditions outlined under “General Exemptions”.

The warranty periods indicate that a vehicle warranty is valid until expiry of the stated period commencing from the date the vehicle was first registered (or delivery to the original retail owner), or the date upon which the vehicle travels the stated kilometres, whichever occurs first.

* Subject to the terms and conditions set out in this Service Warranty Passport.

^ Commercial application means that the vehicle has at any time been used or is currently used for a commercial purpose, and such uses include without limitation; taxi or hire vehicle, rental vehicle, courier vehicle, driving school vehicle, security vehicle, tour or bus operator and emergency services vehicle. Passenger vehicles used under commercial vehicle conditions will be limited to a 60 months / 130,000 km* warranty. People movers (iMax) used under commercial vehicle conditions will be limited to 60,000 months / 160,000 km*

Transfer of ownership.

Warranty transfer – change of ownership details.

The new vehicle warranty may be transferred with the vehicle to a new owner.

In the event of a change of ownership or a change to owner details, updates can be made on-line via 'myHyundai' on our website www.hyundai.com.au.

Under no circumstances can this policy be transferred to another vehicle. This warranty is cancelled if the vehicle is written off or disposed of by an insurer.

Vehicle usage history.

The entitlement to the unlimited kilometre warranty* offered by Hyundai depends on vehicle usage history. It will be the purchaser's responsibility to obtain and provide Hyundai with information and records such as details on how the previous owner/s used the vehicle, details on how the vehicle is currently used, the vehicle's service history and other vehicle records. This information or those records may be required by Hyundai to validate warranty status when requesting warranty repairs. (Refer to Owner Responsibility on Page 8).

Note

* Vehicles used or previously used in commercial application will not be eligible for unlimited kilometre warranty.

Customer support.

It is the responsibility of the owner to bring to the attention of the Hyundai Dealer any matters which give cause for complaint except for repair or service work carried out by other than a Hyundai Dealer and to give the Hyundai Dealer the opportunity to rectify such matters. In the unlikely event of a situation arising which the owner believes has not been attended to in a professional manner, the following suggestions are made to assist with resolving the matter.

1. We recommend that matters directly involving your preferred Hyundai Dealer to be raised with the Hyundai Dealer Service Manager.
2. If satisfaction cannot be obtained from the Hyundai Dealer Service Manager, contact with the Hyundai Dealer Principal should be established, in writing if necessary.
3. In the unlikely event that a satisfactory response is not obtained from the Hyundai Dealer Principal, written contact should be established with:

Maintenance and service requirements.

To ensure the continued reliability and safety of the vehicle, certain Routine Maintenance Service operations are required at the specific kilometre or time intervals as follows:

Electric.

- Routine Scheduled Service
 - Every 15,000km or 12 months*
- Intermediate Service (optional unless driven under severe usage conditions as referenced on page 15)
 - Every 7,500km or 6 months*

It is the responsibility of the vehicle owner to ensure the maintenance schedules shown in the Owner’s Manual are adhered to. Lubrication and fluid specification guides can be found in the Owner’s Manual.

The new vehicle warranty may be invalidated if the routine maintenance schedule operations are not performed in line with the requirements outlined.

The routine scheduled maintenance may be carried out by any suitably qualified motor vehicle repairer, and not just Hyundai Dealers. However, for the warranty to remain valid a motor vehicle repairer must comply with the requirements of the warranty and issue detailed auditable invoice documentation to substantiate that the scheduled service maintenance was carried out as per manufacturer’s recommendation.

All warranty claims must be made through an authorised Hyundai Dealer and all warranty work must be carried out by an authorised Hyundai Dealer.

Please check our website at www.hyundai.com.au to locate your nearest authorised Hyundai Dealer.

In addition, defects which are caused by incorrect lubricants or attributed to the use of non genuine parts or accessories may affect the warranty cover.

Note

The inspection and testing of certain electronic fuel injection/engine management, high voltage control systems and transmission control systems requires specialised electronic equipment specifically designed for Hyundai vehicles. The use of general purpose electrical test equipment may result in damage to the electronic control unit microprocessors.

Tyre and wheel replacement.

Your vehicle is equipped with tyres and wheels designed to provide for optimal ride and handling capabilities.

When replacing the tyres and wheels, be sure to equip all four with the tyre and wheel of the same size, type, tread, brand and load-carrying capacity. Do not use a size and type of tyre and wheel that is different from the one originally installed on your vehicle.

Using tyres and wheels of a different size can cause irregular operation of the ABS (Anti-lock Brake System) and ESP (Electronic Stability Program) systems.

It is therefore best to replace all four tyres at the same time however, if that is not possible or necessary, then replace the two front or the two rear tyres as a matching pair without disregarding the above recommendations.

Intermediate service.

- Optional unless vehicle driven under severe usage conditions.

Not all Hyundai vehicles are operated in the same way. Some driving conditions place more stress and strain on your vehicle than other conditions.

Certain maintenance procedures must be performed more frequently on vehicles normally used under high usage or demanding driving conditions. This will ensure your Hyundai vehicle maintains peak operating performance.

Your authorised Hyundai Dealer can advise you on the benefits of an intermediate service for your vehicle’s operating conditions. You are responsible for properly maintaining your Hyundai vehicle in accordance with the vehicle maintenance requirements described in your Owner’s Manual.

* Whichever occurs first.

Maintenance and service requirements.

The following conditions should be construed as severe usage conditions:

- Repeated driving short distances of less than 8 km in normal temperatures or less than 16 km in freezing temperatures.
- Extensive low speed driving for long distances.
- Driving on rough, dusty, muddy, unpaved, gravel or salt spread roads.
- Driving in areas using salt or other corrosive materials or in very cold weather.
- Driving in heavy dust conditions.
- Driving in heavy traffic.
- Driving on uphill, downhill, or mountain roads repeatedly.
- Driving as a patrol car, taxi, courier or other commercial use.
- Driving at high speeds over 170 km/h.
- Frequently driving in stop-and-go conditions.

If your vehicle is operated under the above conditions, you should inspect, replace or refill more frequently than the

General checks.

Further to routine scheduled maintenance, you should carry out regular checks of your vehicle's coolant (together with other fluids listed in your Owner's Manual). This is preventative maintenance, and allows you to get to know your Hyundai vehicle.
