

5-door and Coupé

New Generation
Hyundai i20

Whatever you want ...

Whichever new i20 you choose, style, roominess and refinement are standard. To meet your personal preferences, we've created specific models designed to make your choice easier. And, if you'd like to make an even sportier impression, the new i20 Coupé ticks all the boxes.

Stylish outside. Roomy inside.
Refined in every detail.

Within the carefully sculpted exterior you'll find a surprisingly roomy passenger cabin of class-leading proportions and levels of refinement that make the new i20 a true step change for cars in this class.

Make a big impression.

Designed and developed in Europe, the new generation i20 is quite an eye-catcher. This latest interpretation of Hyundai's "Fluidic Sculpture 2.0" design philosophy is strengthened by dynamically stretched headlamps and the precise surface contouring. Unique in this class is the availability of the extremely wide opening panoramic sunroof (pictured) that floods the interior with light.

An eye-catcher from every angle.

The purposeful stance of the new i20 is further enhanced by the “floating roof” effect created by the gloss black c-pillar. A distinctive side feature line runs the length of the car to meet the handsome 3-dimensional rear lamps, completing the overall impression of premium quality design.

Think big, and relax!

Space isn't a luxury, it's a must. Five adults can be comfortably accommodated within the roomy cabin, thanks to the class-leading combined legroom. The feeling of space is emphasised by a wide, coloured dashboard insert that complements door panels and seating fabrics. Several interior colour packages are available, here we show "Cappuccino". So sit back, relax, and enjoy the ride.

Premium style, redefined.

The interior design of our new i20 dashboard is so much more than elegant and “grown-up” - it’s also extremely efficient and user-friendly. Our ergonomics experts have advanced the functional clustering of instruments and controls so that all are perfectly positioned for easy, intuitive use. “White on blue” instrument graphics are optimally balanced for day or night driving. The slim A-pillars in high strength steel extend the feeling of space and enhance the driver’s field of vision.

New levels of refinement: the wide-opening glass panoramic sunroof and leather seats.

Engine start/stop button. Keyless starting when the smart key is on board in your pocket or bag.

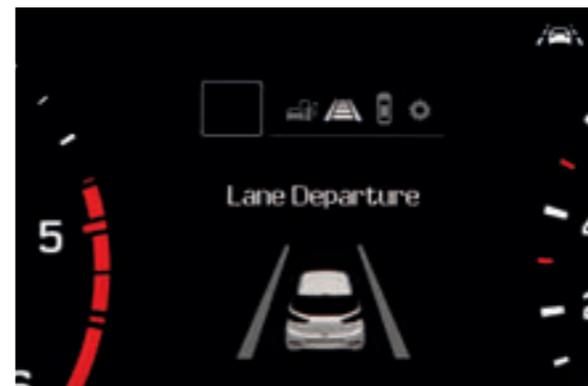

Heated steering wheel. A boon when starting your drive on a cold winter morning.

Audio system. RDS radio with CD/MP3 player and Bluetooth connectivity and 1GB storage. The system can also be operated by controls on the steering wheel. The Bluetooth brand is the property of Bluetooth SIG Inc.

Integrated navigation system. Easy-to-use navigation system with an impressive 7" screen seamlessly integrated into the dashboard.

Lane departure warning system. Instant visual and audible warning of unintentional departure from the lane you're driving in.

Automatic air-conditioning. Just select your preferred temperature and the system does the rest. There's even an auto-defog function to keep windows clear.

Aux and USB ports. Easy connectivity for your smartphone or MP3 device. Just plug-in and play.

Quality you can see and feel.

The complete interior is finished in carefully selected fabrics and materials that will impress you with their perfect fit and high quality. The resulting ambience combines with equipment levels to make the i20 unique in this class. Highlights include leather trim, dash-top docking station for smartphones, heated steering wheel, and 7" navigation system with integrated reversing camera. Features may be standard or optional, depending on model.

Every day is different. Your i20 is ready!

Whatever your day has in store, your new i20 has the versatility to help you on your way. The class-leading 326-litre trunk volume can be increased to 1042 litres by folding the rear seats flat. The luggage floorboard can be moved up or down as required, and there are numerous stowage possibilities located conveniently throughout the cabin.

There's a conveniently flat load space floor when the rear seats are folded down and the luggage floorboard is in the high position.

Split-fold rear seat. The rear seats can be folded flat in the ratio 60:40 to create a conveniently versatile load space.

Adjustable load space floor. The luggage floor can be located at 2 different heights to create either a flat load floor when seats are folded flat, or a deeper load space if preferred.

Cup-holders. Conveniently positioned between the front seats.

Bottle stowage in doors. 1.5 litre bottles can be securely stowed in the front door pockets, while the rear doors can accommodate 1 litre bottles.

Built-in safety. It's the key to driving pleasure.

Peace of mind makes every drive a safer experience. The new i20 goes even further to keep you out of trouble.

Cornering lights throw a bright beam of light in the direction that the car is turning.

Safety is not an option. It's our passion.

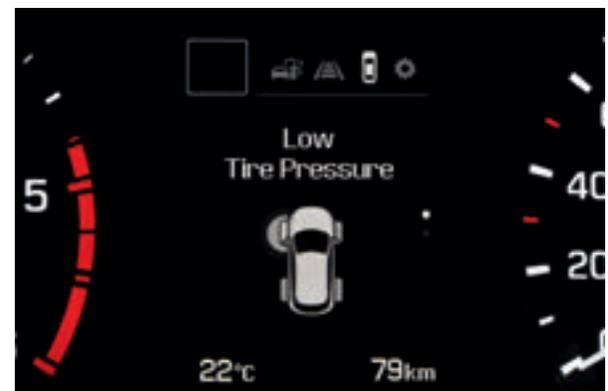

And we're passionate about introducing more safety to this market segment, so the chassis and body structure make extensive use of ultra-high-strength steel. Besides rain sensors and automatic lights, the new i20 also offers the sophistication of cornering lights, Lane Departure Warning System and Tyre Pressure Monitoring System.

Electronic Stability Control. Works unobtrusively with Vehicle Stability Management to maintain grip and control especially on low-friction surfaces.

Lane Departure Warning System. First visual, then audible warning when leaving a traffic lane without signalling.

Tyre Pressure Monitoring System. Senses and indicates the loss of pressure in individual tyres.

Hill Start Assist Control. Prevents unintentional rollback when starting on hills.

Height-adjustable seat belts. The upper front seatbelt mounts are height-adjustable for improved safety and comfort.

6 airbags. All-round protection with 2 front, 2 side and 2 curtain airbags.

Taking power to the streets.

We've paid special attention to the performance and economy of the engines available in our new i20. They all meet Euro 6 standards, and have been calibrated to meet the demands of European drivers. There are three four-cylinder petrol units: a 75 PS (55 kW) 1.25-litre, an 84 PS (62 kW) 1.25-litre, and a 100 PS (74 kW) 1.4-litre. They are modern, all-aluminium engines with dual overhead camshafts and continuously variable valve timing.

Two diesel engines are available: a 75 PS (55 kW) 1.1-litre and a 90 PS (66 kW) 1.4-litre. These high-economy, high-torque units are mated to six-speed manual transmissions.

Transmissions. The 6-speed manual transmission is standard with all engines except the 1.25-litre engines that are equipped with a 5-speed manual. A 4-speed automatic transmission is available for the 1.4-litre petrol engine.

BlueDrive. Combining Intelligent Stop & Go (ISG), Alternator Management System (AMS) and low rolling resistance tyres.

Raising the standard. i20 Access.

Standard equipment includes the everyday convenience of front electric windows, powered and heated door mirrors, height-adjustable driver's seat and a steering wheel that's adjustable for height and reach. Further comforts, such as radio with USB and Aux ports, keyless entry and tinted windows are also standard, and there's also the option of manual air conditioning and front fog lamps.

See page 33 for a comprehensive overview of available exterior and interior colour combinations.

Adjustable steering wheel. The steering wheel is adjustable for both reach and rake.

Remote locking & unlocking. Doors and tailgate can be locked or unlocked via the buttons on the key.

Powered and heated door mirrors. The door mirrors can be remotely adjusted and heated from the door console.

Height-adjustable driver's seat. Optimize your driving position with the height adjustable driver's seat.

The next level. i20 Comfort.

A step up from the Access model is the i20 Comfort. With a list of standard features that includes steering wheel audio controls, CD player with Bluetooth and 1GB storage, leather steering wheel and gear shifter, the Comfort model really lives up to its name. But the list does not end here. The Lane Departure Warning System, parking sensors, front fog lights and cruise control with speed limiter all contribute to a driving experience that is both safe, stress-free and more than comfortable.

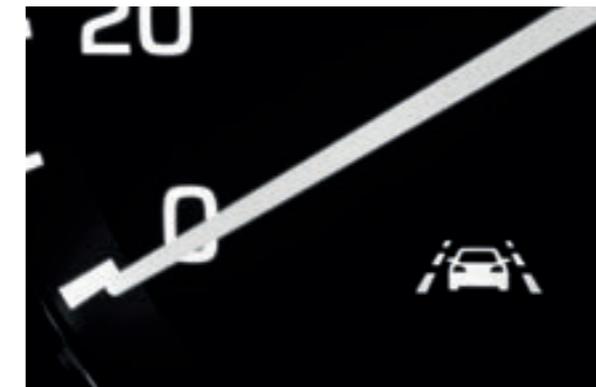

See page 33 for a comprehensive overview of available exterior and interior colour combinations.

Electric windows in all doors. The driver's window has a one-touch Auto up/down function with anti-trap feature.

Front fog lights. Additional front lighting helps illuminate the way through fog and heavy rain.

Lane Departure Warning System. First visual, then audible warning when leaving a traffic lane without signalling.

Parking sensors. Rear parking sensors make it easier to park in confined spaces.

The "Panorama" model is distinguished by the large opening glazed sunroof and privacy glass, while striking LED rear lamp clusters identify the "LED" model.

Two ways to indulge yourself. i20 Panorama and i20 LED.

These two "top of the line" models make the i20 even more tempting. Besides all the equipment of the Comfort model, we've added smart 16" alloy wheels, electro-chromatic mirror (ECM) and power folding door mirrors. True highlights are the projector headlamp units with integrated LED daytime running lights and cornering lights. Inside, you benefit from a convenient centre console with armrest, automatic climate control and our Auto Defog system. Rain sensors and automatic lights are standard.

See page 33 for a comprehensive overview of available exterior and interior colour combinations.

Smart key & engine Start/Stop button. Keyless starting when the smart key is on board in your pocket or bag.

Automatic climate control. Select your preferred temperature and the system does the rest. Its auto-defog function keeps the windscreen clear.

Centre console and armrest. Extra stowage in the centre console with a lid that forms a comfortable padded armrest.

Electro-chromatic mirror (ECM). The interior mirror automatically darkens when its sensor detects glare from the headlights of following vehicles.

Power folding door mirrors. The door mirrors can be electrically folded against the body. Useful when parked in tight spaces.

High performance projector headlamps. Combined with LED daytime running lights and static cornering lights.

The new i20 Coupé. For a more dynamic perspective.

The New Generation i20 Coupé has all the qualities of the 5-door model within its sleekly styled 3-door body. Supported by dynamically raked windscreen and roof pillars, the descending roofline ends in a neatly integrated spoiler. The athletic, wide-track stance is emphasized by the inverted hexagonal front grille, boldly sculpted bumpers, expressive wheel arch styling, and the optional unique 17" alloy wheels.

Enjoy the difference.

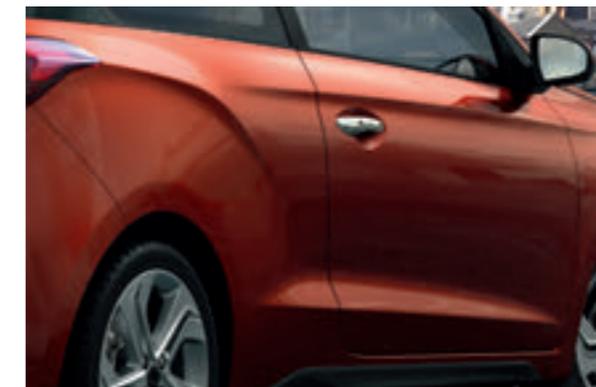

The New Generation i20 Coupé offers similar user-friendly practicality to the 5-door model. Easy-entry front seats with memory function provide effortless access to the rear seats, and the 336-litre trunk volume is simply the best in the class. The stylish orange accents of the optional Coupé interior pack (see left) go especially well with the “Tangerine Orange” exterior colour.

Bold design details. The front fog lamps sit in sculpted recesses that emphasize the expressive shape of the Coupé’s front grille.

Rear bumper. The striking design echoes the styling of the front bumper and accentuates the wide-track stance of the Coupé.

Sculpted side panels. Confident, dynamic shapes underline the Coupé’s sportier character.

Coupé aesthetics. The side windows swoop down to join the gloss black insert at the base of the sloping c-pillar.

So much choice. You decide.

We're all different, and we all have our own preferences and priorities. Your 5-door i20 is available in a wide range of exterior colours, complemented by 4 interior colour packages. Just for the Coupé, we've added the striking exterior colour "Tangerine Orange" to the palette, plus matching colour accents for the interior.

Whichever you choose, you can then add a personal accent with your pick of optional equipment and accessories. Your local Hyundai dealer will help and advise you with your selection.

Dimensions

The tow-bar mounted bike carrier, front and rear wheel arch mudguards and ten-spoke alloy wheels are from the Hyundai Genuine Accessories portfolio.

Business suit hanger. Keeps clothes tidy and crease-free during journeys. It attaches easily and securely to the front seat and can be quickly detached for use elsewhere. Meets current occupant safety requirements.

And there's more!

Hyundai Genuine Accessories have been created to help you enjoy even more fun and versatility with your new i20. All are precision-made using high quality materials, so that they will fit your car perfectly. And they meet the rigorous manufacturing standards demanded of all products carrying the Hyundai name.

Armrest with a storage box. Stylish and convenient armrest supports a comfortable driving position and provides useful extra storage space.

Entry guards. Creating a premium impression every time the door is opened, these high-quality aluminium entry guards with i20 logo fit perfectly to the doorsills.

Blue LED lighting foot area. Welcoming concealed floor illumination that automatically switches on and off with the opening and closing of the front doors.

Tow bar, vertical detachable. In high-quality steel with a 3-ball locking system for easy and secure mounting. Out of sight when not in use. Maximum gross payload for bike carrier usage is 75 kg.

Textile floor mats, velour with brown accent. Luxurious velour mats with brown stitching and i20 logo. Secured by the standard fixing point and anti-slip backing. Available also in grey, blue grey and beige.

Trunk liner. A light, waterproof and durable trunk liner with raised edges protects the trunk floor from dirt, spills and grime. A perfect fit, and branded with the i20 logo.

With you all the way.

Driving your new i20 away from the showroom is just the start of a long and happy relationship. We've prepared a number of programmes to make sure that it stays that way.

5 Year Unlimited Mileage Warranty

Living proof of our faith and trust in our products is our 5-year new vehicle warranty. You enjoy 5 years carefree driving, 5 years road-side assistance and 5 years annual vehicle health checks to keep your driving trouble-free. All without any mileage restrictions.

MyHyundai

As an owner of a Hyundai, you will have access to this exclusive portal. It opens the door to a world of special offers you won't find anywhere else, the latest news about Hyundai, and it provides a secure zone for the storage of your important vehicle details. Automatic reminders for servicing and vehicle health checks can also be set here. It all makes owning and driving your Hyundai an enjoyable and hassle-free experience.

Finance

Hyundai can help you finance the purchase of your new Hyundai over periods of up to 5 years. Our finance plans can be very flexible - just ask your dealer for detailed information, and choose the plan that suits you best.

12-year Anti-perforation Warranty

In addition to our 5-year new vehicle warranty, we also provide a 12-year warranty against perforation of the bodywork from the inside.

Hyundai Genuine Accessories

Nothing fits better than a Hyundai Genuine Accessory. They are designed and engineered to enhance the looks and capabilities of your i10, and meet the rigorous manufacturing standards demanded of all Hyundai products.

Hyundai Genuine Parts

Produced to the same exacting standards as original equipment, our genuine replacement parts are covered by comprehensive warranties.

New Thinking. New Possibilities.

We, at Hyundai, are inspired by the passion to create cars that exceed your expectations. Dedicated to the way things should be, not the way they are. Looking for answers before the questions have been asked. We never stop searching for better solutions that help you get more out of life. It's just the way we are.

What does this mean for you? It means that the Hyundai you drive has been engineered to surprise you with its built-in quality. To compliment you with its striking design. To care for you, your family and passengers with its embracing strength. To minimize its impact on the environment. And to satisfy you with intuitive packaging that leaves nothing to be desired.

All of this being the product of new thinking that opens up a world of new possibilities.

What's behind the badge?

The philosophy behind the way we design and engineer our cars is explained at the beginning of this brochure. But we'd also like to tell you something about who we are, how committed we are to Europe, and give you some insight into the future.

Healthy growth.

With already over 3 million Hyundai cars on the roads of Europe we continue to enjoy a consistent history of steady growth. This has resulted in an ever-expanding community of satisfied Hyundai owners across the continent. Seen from a global perspective, Hyundai Motor is now the fifth largest automaker, and that means that a vast array of resources can be concentrated on the development of cars that you will want to drive. That's our commitment to you.

Committed to Europe.

One look at our range of cars immediately confirms that we build cars that you will feel at home in. Actually, that should not be surprising: 95% of all new Hyundai cars on European roads have been designed and engineered at the Hyundai Motor Technical Centre in Rüsselsheim, Germany. Many of them have been built at one of our European production facilities. In fact over a quarter of a million people in Europe are proud to be employed by Hyundai. Annually we pay € 1.7 billion in taxes in Europe, we source 72% of our supplies in Europe, to a value of € 3.4 billion, and our sales and distribution network contributes € 2 billion to the European Gross Domestic Product. We're here to stay.

Building on success.

Standing still has never been part of our DNA. We know that to succeed you must create, innovate and constantly raise standards of quality. Evidence of our investment in Europe is the Hyundai Test Centre located at the renowned Nürburgring. This provides us with a state-of-the-art facility where our "Accelerated Durability" test procedures - simulating 180,000 km severe driving in just a few weeks - can be put into practice.

Competitive spirit.

Success is even more fun when it involves motorsport. Built in our purpose-designed Alzenau motorsport facility, our i20 WRC cars have already won many WRC rally stages in their first year. But the 2014 season highlight has to be the impressive One-Two victory on our "home" territory, Germany. Proof that, as in everything else we do, we're determined to succeed.

Number one.

Not the biggest, but the best! In what is probably Europe's most demanding car market, Germany's authoritative Auto Bild Qualitätsreport ranked Hyundai number one for owner satisfaction in 2010 and 2011. Because we put you first, you put us first. Thank you.
