

NEW THINKING. NEW POSSIBILITIES.

Today, our expectations of mobility go beyond the idea of basic transportation. Our vehicles can reflect our lifestyles and expand our horizons. Their performance and reliability can transform our lives - or our businesses - beyond our expectations. Hyundai, with world-class production facilities and stringent quality standards, is dedicated to bringing new and relevant solutions to existing and potential customers. We're on our way. We invite you to come with us.

H350_BUS

Comfort, space and convenience

Seats for 13 passengers plus driver, available with or without side sliding door.

H350_BUS

LED saloon lighting

Class-leading spacious
luggage space

Comfortable passenger seats

Reading lamp

Flush-glazing for side windows

Powered extendable step for sliding door

A great place to work

A happy, comfortable driver is a safer, more productive driver. That's why we've designed the cab around the driver. Everything is exactly where it should be.

4.2" Multi-information display provides essential trip and driving status information

Remote controls on steering wheel, adjustable for height and reach

8" touch-screen controls audio, video and navigation functions. Below are air conditioning and seat-heating controls

Driver's seat optimized for European driving conditions

Exceptionally roomy driver's cabin

EURO VI A2-2.5 CRDi DIESEL ENGINE

Next generation
common rail injector

Electronically controlled
turbocharger

Long-life chain-drive
for camshafts

Putting power to work: 170 PS and 421 Nm

Our purpose-built common rail diesel engines provide impressive power and torque, while also meeting stringent European emissions requirements. Together with perfectly matched transmissions, they have the flexibility to meet all customer needs, and are designed to function with faultless durability.

Perfectly located gear shifter

Auto Stop

Idle Stop & Go (ISG) avoids unnecessary engine idling when stationary

170 eVGT
High-power 2.5 litre
170 PS / 421 Nm

Optimized 6-speed manual transmission

4-wheel disc brakes for consistent,
balanced braking

VDC (Vehicle Dynamic Control)
VDC maintains vehicle stability on the move.
When the potential for over- or under-steer
is detected, engine torque is limited and
selective brake intervention is applied.

All-embracing safety and protection

No matter how well you drive, accidents can happen. That's why the H350 is available with a wide range of safety technologies that can actually help avoid an accident or, if necessary, protect occupants if an accident becomes inevitable.

The strong, monocoque construction includes anti-corrosive steel plate

Under heavy emergency braking, the hazard warning lights are automatically activated

Side mirrors are electrically adjusted and heated

Driver's airbag and passenger airbag

Hill Start Assist (HSA) Control stops rollback on hill starts

Hydraulic Brake Assist provides extra assistance under heavy braking

LDWS (Lane Departure Warning System)
Lane Departure Warning System (LDWS) provides instant visual and audible warning of unintentional departure from the lane you're driving in.

Convenience has a new champion: the H350

As our roads become even more congested, we all appreciate the increasing value of technologies that can make everyday driving easier. That's why we've equipped the H350 with systems that assist the driver in bad weather, on the highway, in city streets, or when parking in confined spaces.

Park Assist System (PAS) uses strategically positioned sensors, front and rear, to detect potential obstructions when parking

Rear camera feeds visual information to the in-cab display

Cab mirror with LCD screen for rear camera

Rain sensors activate windscreen wipers when necessary

Cruise control for effortless highway driving

Integrated audio systems with CD & MP3 player, Bluetooth, USB and iPod ports

Easy-access fuel filler panel

Clear, uncomplicated controls for heating and air conditioning

Passenger door window remote control

LED side repeater turn signals located in door mirrors

High-performance projector headlamps

Roominess redefined, with 23 storage places

Everything looks right, feels good and works perfectly. And there's all the legroom, headroom and elbowroom that you could need. Plus an amazing 23 different places for everything needed on any journey.

Sun visors, with integrated ticket holders, fit neatly into the roof shelf

Control panel for door windows and door mirrors

Keyless Entry

Convenient roof shelf

Storage tray with 12V power outlet. Located centrally on the upper dashboard

Pull out cup holder drawer

Glove box for front seat passenger

Deep door pockets

Easy-access emergency triangle and medical kit
