‘Make in India, Made for the World’

Hyundai Motor India Limited Achieves YoY Export Growth of 13% and Export Contribution of 26.7% to Total Sales in Q1 of FY2026

- HMIL achieved total monthly sales of 60,924 units (domestic: 44,024 units + exports: 16,900 units) in June 2025
- SUVs contributed 67.6% to HMIL total domestic sales in June 2025
- HMIL reported total sales of 1,80,399 units (domestic: 1,32,259 units + exports: 48,140 units) in Q1 FY2026

Gurugram | July 01, 2025: Hyundai Motor India Limited (HMIL) has achieved total monthly sales of 60,924 units (domestic: 44,024 units + exports: 16,900 units) in June 2025. Also, the total sales for the Apr-Jun quarter FY2026 were reported at 1,80,399 units (domestic: 1,32,259 units + exports: 48,140 units). With the increased focus on exports, HMIL's export contribution reached 26.7% to its total sales in Q1 of FY2026.

Commenting on HMIL sales, Mr. Tarun Garg, Whole-time Director and Chief Operating Officer, HMIL said, “Underscoring the global appeal of Hyundai vehicles, we recorded a 13% year-on-year growth in export volumes for Q1 FY2026, with 48,140 units shipped compared to 42,600 units in the same period last year. This has elevated the share of exports to 26.7% of total sales in Q1 FY2026, up from 22.2% in Q1 FY2025. In the domestic market, the geopolitical situation continued to affect the market sentiment with domestic sales registering 44,024 units in June 2025. As we come closer to the beginning of production at the Talegaon plant, we remain cautiously optimistic about a gradual recovery of demand, supported by reduction in repo rates and improving liquidity on account of cut in CRR. We are closely watching the global geopolitical scenario and are committed to delivering value and innovation to our customers across both domestic and export markets.”
