People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.

The all-new KONA Hybrid is here.

The newest member of the KONA family uses electric power to help you go farther on a litre of petrol – because nobody said that lowering emissions had to be boring. Thanks to its innovative hybrid powertrain, the all-new KONA Hybrid combines head-turning good looks with exceptional fuel efficiency. All without you having to charge a battery or change your driving habits.

Paddle shifters

18" Alloy wheels (optional)
Active air flap / Air curtain

Best-in-class fuel economy

3.9ℓ / 100km

based on 16" tires
combined fuel consumption rating
(city: 20.1km/ℓ, highway: 18.4km/ℓ)

Based on 18" tires - 4.3ℓ / 100km

Full-parallel hybrid drive system

They work together with the support of a powerful lithium-ion polymer battery to deliver excellent fuel economy and cut down on emissions. Depending on the driving situation, the hybrid drive system switches seamlessly between the conventional engine and the electric motor – sometimes utilizing both at the same time. Together, they deliver outstanding power performance with a combined output of 105 PS and 15.0 kgf-m of torque. And as part of the regenerative braking system, the electric motor also helps slow the car, charging the battery so you don't have to.

Inside the all-new KONA Hybrid

The seats feature white contrast stitching for even more style. What's more, you can also choose from three other optional colour packs – Orange, Red, and Lime – to further customise the interior. There's also a new digital information cluster available, conveniently located next to the speedometer. The 4.2" LCD screen shows you important driver information like energy flow as well as the status of active safety features, remaining fuel range and fuel consumption, navigation instructions and outside temperature. The hybrid gauge shows you battery charge and discharge status and the battery state of charge.

4.2" Supervision cluster

7" touch screen display (Includes inner amp)

KRELL premium sound system (optional)

Electronic parking brake

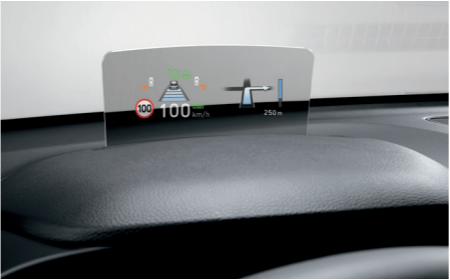

Features

16" alloy wheel

18" alloy wheel (optional)

Projection headlamps
Head-up display (HUD)
6 -speed dual -clutch transmission (DCT)

LED headlamps
5" Standard audio system
Full power seats with lumbar support

Bulb type rear combination lamps
Full auto air conditioning with auto defog
Ventilated seats (optional)

LED rear combination lamp
Wireless phone charging
Rear Heated seats
