

GRANDEUR

Calligraphy Full Option (Transmission Blue Pearl)

Outclass GRANDEUR

Experience The all-new GRANDEUR's pioneering innovation that transcends heritage and expectations, generations and preferences, and technology and emotions.

Design

Smoothly sculpted surfaces and a futuristic horizontal lamp add to The all-new GRANDEUR's beautiful proportions, completing the sophistication and presence of a flagship sedan.

Calligraphy Full Option (Yugi Bronze Matte)

Parametric jewel grill / Horizontal LED lamp (Seamless Horizon Lamp) / Full LED headlamps (projection type) / Opera glasses / 20" Alloy wheels & Pirelli tires exclusively for Calligraphy models

Frameless doors

LED rear combination lamps

Auto-flush door handles

Calligraphy Full Option (Indigo/Light Gray two-tone): Bezel-less inside mirrors, antibacterial-treated interior materials, suede interior materials, interactive ambient mood lamp, power tilt & telescopic steering wheel (including vibration warning, heating, and interactive light), electronic shift column, Hyundai Motor's next-generation infotainment system (ccNC), door trim-wide full armrest, 10.25" full-touch air conditioning controller (including Haptic controls)

A wrap-around interior structure is trimmed in premium and genuine materials to create a cozy and sophisticated space.

Center console

2nd row reclining seats and ventilated & heated seats

Calligraphy

Exclusive, differentiated designs and premium materials offer a top-class experience.

Exclusive (Platinum option available, Biophilic Blue Pearl) / Calligraphy Full Option (Yugi Bronze Matte)

Black Ink

All black exterior and interior trims were applied to express refined beauty, resembling an elegant ink brush painting.

Calligraphy Black Ink Full Option (Abyss Black Pearl, Serenity White Pearl)

Function

The wide range of convenience features continue to evolve, customizing to each drivers' needs and preferences.

Hyundai Motor's next-generation infotainment system (ccNC: connected car Navigation Cockpit)

The cluster, GPS navigation, and head-up display (HUD) are integrated into a seamless graphical user interface on a panoramic display. It provides a wide range of contents, including natural language processing-based voice recognition, media streaming, and real-time traffic information. Software updates don't require a visit to the service center as OTA (Over-The-Air updates) are possible (for infotainment system, suspension, brakes, steering wheel, advanced driver assist systems etc.).

Built-in Cam

Exclusive high-definition cameras built in the front and rear of the vehicle provide excellent day & nighttime images, as well as a large-capacity external hard drive, OTA updates, and a function to save & review the vehicle's drive information (linked to map etc.). The built-in cam's status information, as well as videos of an impact while parking, is saved and transmitted to the driver via Blue Link.

Interactive Ambient Mood Lamps

The mood lamps on the crash pad are synced to various functions and driving situations, such as the air purifier, drive mode and entering a school zone. The lamps light up in different colors and at different speeds, accordingly.

* Interactive lights are temporary and turn off after a certain amount of time.

10.25" Full-Touch Air Conditioning Controller (including Haptic controls)

A wide array of functions can be controlled simply by touching the full-touch, integrated air conditioning controller's large screen, including parking features, seat ventilation & heating, and steering wheel heating etc. Users can also choose between normal, simple and customized themes, according to usage patterns.

In-car Payment / e hi-pass

Users can apply for & manage e Hi-pass services via In-car Payment to pay for toll fees without an actual credit card.

OTA Software Update (Over-The-Air Updates)

Update the latest software wirelessly by either remaining parked after igniting the vehicle, or turning off the ignition and giving approval to the update.

* The screen layout/design of the infotainment system may change with the updates.

Digital key 2

Controls door locking/unlocking and ignition with iPhone, Apple Watch, and Android smartphones, i.e., Samsung smartphones. Pairs with up to 1 5 devices for easy access.

* Visit Hyundai's website for the list of devices compatible with Digital key 2.

Indoor Fingerprint Authentication System (for personalization, ignition, payments etc.)

This system can be used for in-car payments or for unlocking valet mode. Users can also start the vehicle and drive with fingerprint authentication.

Remote Smart Parking Assist

This function assists the driver in entering/exiting a parking spot by moving the vehicle forwards/backwards from outside of the car.

UV Light Sanitizing System (center console) / Antibacterial-treated Interior Materials

A UV light sanitizing system has been applied to the console box, while antibacterial-treated materials have been applied to the seats and major touchpoints. When the air conditioner is turned on, odor-inducing materials (i.e. microorganisms and harmful gases etc.) are removed by photocatalysts to maintain hygiene in the cabin.

Driver's Seat Ergo Motion Seats - Stretching Mode

A comfort stretching function has been applied to the driver's seat to minimize stress and offer a comfortable driving environment for the driver during long distance driving.

Performance

An optimized suspension system and new driving control technologies provide a smooth and comfortable ride exclusive to a flagship sedan.

Smartstream Gasoline 2.5

198 Max. Power
PS/6,100rpm

25.3 Max. Torque
kgf·m/4,000rpm

11.7 Gas mileage*
km/ℓ (8-speed A/T/2WD)

Smartstream Gasoline 3.5

300 Max. Power
PS/6,400rpm

36.6 Max. Torque
kgf·m/5,000rpm

10.4 Gas mileage*
km/ℓ (8-speed A/T/2WD)

Smartstream LPG 3.5

240 Max. Power
PS/6,000rpm

32.0 Max. Torque
kgf·m/4,500rpm

7.8 Gas mileage*
km/ℓ (8-speed A/T/2WD)

Electronically Controlled Suspension with Road Preview

Using a front camera and the GPS navigation, this system identifies the road surface conditions ahead and adapts the damping force of the suspension to offer an optimal ride.

HTRAC

An electronic AWD system is applied to The all-new GRANDEUR to actively distribute power to the front and rear suspension in various driving conditions, to achieve optimal driving performance.

※ Can be applied if you choose Gasoline 3.5

Active Road Noise Control

This system emits inverse sound waves if noise from the road surface enters the vehicle while driving, reducing the road noise and improving indoor quietness.

ICT Connected Shift System (applicable to gasoline/LPG models)

This system uses a combination of the vehicle's GPS navigation, radar signals and ADAS to predict road and traffic conditions ahead and automatically shift gears in advance to increase driving convenience and safety.

※ In the case of hybrid models, vehicles come equipped with hybrid-specific driving features such as e-Motion Drive.

Automatic Shifting to Neutral Gear (applicable to gasoline/LPG models)

This system automatically shifts the gear into neutral when the vehicle is coasting, extending the distance driven by coasting and as a result improving real fuel efficiency.

※ In the case of hybrid models, vehicles come equipped with hybrid-specific driving features such as e-Motion Drive.

Special Control for Congested Roads (applicable to hybrid models)

This system determines whether the vehicle is stuck in a congested traffic area by combining the information gathered from its GPS navigation and the driving condition of the vehicle. It then strategically changes the gear shifting patterns and engine ignition points to reduce unnecessary operation of the vehicle caused by repeated acceleration/deceleration, ultimately improving riding comfort.

* based on 18" tires

Hybrid

The dynamic performance and smooth driving emotions of The all-new GRANDEUR Hybrid have been maximized with e-Motion Drive.

Smartstream Gasoline 1.6 Turbo Hybrid

180 Max. Power
PS/5,500rpm

27.0 Max. Torque
kgf·m/1,500rpm

18.0 Gas mileage*
km/ℓ (6-speed A/T/2WD)

e-Comfort Drive

When passing a speed bump or when increasing speed, the motor controls the vehicle's shaking to ensure a smooth ride. It also minimizes the driver's level of shakiness.

e-Dynamic Drive

During sudden acceleration or cornering, the motor effectively controls the brakes, gears and torque to provide seamless acceleration and stable cornering performance, improving grip and motion performance.

* based on 18" tires

Hyundai SmartSense

Hyundai SmartSense is an advanced driver assist system that provides a safe and convenient driving and parking environment.

Forward Collision Avoidance Assist (Junction Turning, Crossing, Overtaking / Steering Assist)

When a risk of collision with a vehicle, pedestrian or bicycle occupant ahead is detected, it warns the driver and, if necessary, initiates the brakes to avoid collision. In addition, it automatically assists in braking when there is a risk of colliding with oncoming vehicles from the left and right sides of an intersection.

Blind-spot Collision-avoidance Assist

A warning is issued if risk of collision with the vehicle next to or behind you is detected while you are using the turn signal to change lanes. If, while attempting a forward exit (from a parallel-parked position), risk of collision with the vehicle next to or behind you are detected, the automatic vehicle control function is activated. When the turn signals are activated, the respective rear side view video will appear on the cluster.

Lane Keeping Assist 2

Utilizing a forward-facing camera to recognize lane markings, this feature assists the driver in keeping the vehicle centered in its lane. In instances where the lane markings aren't detected, it recognizes vehicles ahead and assists with steering for a certain duration. Improvements include an expanded operational range (including difficult curves) and refined steering angle control, enhancing lane-centering performance.

- ※ Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.
- ※ The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.
- ※ The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

Highway Driving Assist 2

When driving on the highway, this system helps maintain a set distance from the vehicle ahead. It also helps maintain a set speed and stay centered even in curved lanes, and helps change lanes.

Navigation-based Smart Cruise Control (Safe/Curve/Access road)

When driving on a highway, this system helps the driver maintain a safe speed based on road conditions. It automatically reduces the car's speed just before it enters a low-speed zone, curved zone or when it is about to enter or exit the highway. After passing these zones, the vehicle is brought back to its designated speed.

Rear Cross-Traffic Collision-Avoidance Assist

If a possible collision with vehicles approaching from the side while in reverse is detected, it warns the driver and automatically applies the brake if the risk increases.

Safe Exit Assist

This feature sounds an alert when vehicles approaching from behind are detected as a passenger deactivates the Electronic Child Safety Lock to exit the vehicle. It also keeps the Electronic Child Safety Lock activated to prevent the doors from opening.

※ Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.
※ The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.
※ The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

The Black Ink trim includes exclusive interior materials (Black hairline finish real aluminum materials, black doorstep, black suede etc.). For more information, please refer to the Digital Catalogue.

H Genuine Accessories

H Genuine Accessories' differentiated convenience and leisure accessories can accommodate a wide range of lifestyles and needs.

New car options

Paint protection film

20" super bright sputtering wheel

Aftermarket-exclusive goods

Micro SD card (128GB) exclusively for Built-in Cam 2

C to USB-A gender changer

Built-in air purifier 2.0

LED metal door scuff / LED metal transverse trim

Light chair

Camping trunk

- ※ Paint protection film is applied on 8 parts of the vehicle (front bumper sides, door edges, door steps, rear bumper sides, rear bumper top, door handles, gas door, and side mirrors).
- ※ The LED metal door scuff/transverse trims may cause glare when the doors or trunk are opened and closed.
- ※ The LED metal door scuff is only installed in the front row (driver and passenger seats), while the rear seats have a metal door scuff without LED.
- ※ The recommended usage period of air filters in the built-in air purifier is 6 months (based on 2-hour usage per day). Replacement filters can be bought at the Hyundai Brand Store in the Hyundai Shop (shop.hyundai.com).

- ※ The USB-C to USB-A adapter is developed specifically for Hyundai Motor vehicles and may not function with other brands or products.
- ※ H Genuine Accessories are exclusively available for delivery from the Namyang, Chilgok, and Yeongnam centers when selected as an option for new vehicles.
- ※ When selecting H Genuine Accessories as an option for new vehicles, no additional compensation will be provided as the cost for handling previously installed parts is included in the package sales price.
- ※ All H Genuine Accessories can be purchased at Hyundai Brand Store in the Hyundai Shop (shop.hyundai.com).

Maintain a constant speed to drive more efficiently.
-The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. -Some parts might be modified without notice to comply with stricter diesel emissions regulations. These changes might have an effect on fuel efficiency figures. -Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. -The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. -The engine performance described above is the "Net Number," a new measure reflecting exhaust resistance that complies with legislation enforced by Korea's Ministry of Land and Transport since 1997. It can be marginally lower than "Gross Output Number," the previous measurement. -Leather seats include some synthetic leather. -Vehicle colors presented here may differ from actual appearance. -Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. -Use of engine oil or fuel that is of low quality may result in damage to the vehicle. -For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

For when thinking of buying, and maintaining my car!

Hyundai Motor's various services are prepared to assist from start to finish!

Convenient test drive service

Step 1: Make a test drive reservation (website, phone, and car coordinator)

Step 2: Fill out a consent form at the relevant driving center

Step 3: Go on a test drive

Step 4: Receive a purchase consultation (e.g. estimate, and purchase conditions)

Test drive reservation
(website)

New vehicle purchase benefits

- Bluemembers points are accrued at a fixed rate depending on the number of new vehicles purchased

* Eligible types: Passenger, SUV, MPV (STARIA), Light Commercial Vehicle (PORTER), and ST1

※ **Rates for individual members:** 0.7 to 3.0% for individual/small business owners, 0.7% for private taxis, and 0.3% for renting/leasing (non-corporate) (for both first-time and repeat purchasers)

※ **Rate for corporate members:** 0.3% (for both first-time and repeat purchasers)

For rental/lease companies pre-designated by Hyundai Motor: 0.2%

Extra 0.1% in points for long-term drivers applying for Bluemembers membership for the first time

Further information
on point accrual rate

Advantage program with no regrets

- Model change possible within 30 days from delivery

- In case of a car-to-car accident within one year of delivery, Hyundai Motor will replace your car with a new one

- If you return your car after the first installation payment and before the end of the installment payment period, your remaining payments will be exempted.

For more
information

Tip - Anyone who is at least 21 years old and has a driver's license can test drive a car. Don't forget to bring your driver's license!

- Bluemembers points are accrued for payments made with a Hyundai Mobility card.

※ Customers who use an earlier version of a Bluemembers partner credit card are eligible for existing point accumulation benefits (M points, Bluemembers points).

Genesis brand vehicles, electric vehicles and fuel cell electric vehicles excluded
