

IONIQ 5 N

IONIQ 5 N (Performance Blue Matte)

Everyday N Life

650hp and 0-100km/h in 3.4 seconds*

The IONIQ 5 N is a high-performance electric car that delivers a driving experience like no other—whether in the driver's daily routine or on the racing circuit, where extreme conditions are the norm.

* When using N Grin Boost mode

Exterior

The unique, inverted “N” design gives a lasting impression on the road.

IONIQ 5 N (Performance Blue Matte)

More on Exterior

N-exclusive front bumper

N-exclusive rear spoiler and inverted triangle LED brake lights, rear wiper

Includes (IONIQ 5 N-exclusive) 21-inch forged wheels, pirelli P-Zero summer tires (275/35ZR21), and N wheel cap

N-exclusive rear bumper and diffuser

Interior

The interior design is optimized for high-performance driving to meet the needs of circuit driving enthusiasts.

More on Interior

IONIQ 5 N (Black one-tone)

* The screen layout/design of the infotainment system may change with the updates.

The N Light sports bucket seats feature mixed Alcantara suede/natural leather, built-in headrests, heated/ventilated seats, and the N logo on the front/rear (front lighting).

Function

The IONIQ 5 N offers incredible functions and advanced smart technologies to guarantee top-rate driving performance.

N-exclusive infotainment mode

A high-end infotainment system provides information through several customizable “N” modes. The EV N-exclusive functions are intuitive and easy to use.

N e-Shift / N Active Sound+

N e-Shift provides a gear shift feel and generates driving sounds that make it seem like you’re driving an internal combustion engine vehicle. N Active Sound+ offers a choice of three sound types (Ignition, Evolution, and Supersonic) and can be linked to N e-Shift.

* The screen layout/design of the infotainment system may change with the updates.

Semi-punching leather-upholstered steering wheel (with heating and N emblem), featuring a design optimized for circuit/sports driving

The steering wheel, optimized for sports driving, is covered in leather.

Ambient mood lighting

The mood lamp's color can be changed as desired.

N-exclusive center console

The shin-supporting pad helps the driver maintain proper posture while circuit driving.

OTA Software Update

Get the newest version of the software wirelessly by simply turning the car off.

* The screen layout/design of the infotainment system may change with the updates.

Digital key 2

The vehicle can be locked or unlocked or the ignition turned on via iPhone, Apple Watch, or Android smartphone (such as a Samsung phone). The digital key can be shared with up to 15 devices.

* Please refer to Hyundai Motor's website for a list of eligible models.

Augmented reality navigation

The driver's screen intuitively displays vital information (e.g. destination, vehicle-to-vehicle distance, front vehicle start alarm) through AR technologies.

* The screen layout/design of the infotainment system may change with the updates.

Digital center mirror

The camera on the digital rearview mirror allows you to see what is behind the vehicle in incredible clarity.

Remote Smart Parking Assist 2

The driver can use the smart key, while outside of the vehicle, to move the vehicle into or out of a parking space.

Surround View Monitor

This function displays real-time video footage of the vehicle's immediate surroundings to ensure safe parking.

Smart power tailgate

If the driver stands near the rear of the vehicle for three seconds with the smart key in his or her possession, the tailgate will open automatically, requiring no other action and enabling the driver to remove items from the vehicle easily and conveniently.

More on Function

Intelligent Front-Lighting System (IFS)

By preventing glare for the driver while delivering adequate brightness, the intelligent headlights guarantee excellent visibility and safety during nighttime driving.

Walk-Away Lock

The door lock is activated automatically when the driver, after having turned off the ignition and with the smart key on their person, walks a certain distance from the car.

Electric High Performance

The IONIQ 5 N's power and braking performance make everyday driving feel like you are in a sports car.

IONIQ 5 N (Performance Blue Matte)

3.5sec

Max.Speed

260km/h

Max.Power / Max.Torque (when using N Grin Boost)

478kW(650PS)/770Nm

0-100 km/h

3.4sec

* N Grin Boost allows maximum output for 10 seconds. Each use is followed by 10 seconds of wait time.

More on
Performance

N-exclusive high-performance brakes / N Brake Regen (NBR)

The IONIQ 5 N is equipped with four-piston brake calipers on the front, as any high-performance car would be. Its superior braking capability is made possible by N Brake Regen (regenerative braking), which is capable of generating a decelerative force of 0.6G.

Rear-wheel N Corner Carving Differential (e-LSD)

This electronic limited-slip differential controls the drive (rear) wheels to enable maximum motor output, enhance driving performance, and compensate for driving power losses.

N Exclusive Functions

Experience everything that N technology has to offer—even on the racing circuit.

01 Race

N Race (Sprint, Endurance)

Manages energy consumption so that you can employ the function that is best suited for a particular driving situation.

- Sprint : Minimizes lap times by delivering maximum performance in a short timeframe.
- Endurance : Extends track-driving time by adjusting output intelligently.

N Battery Preconditioning (Drag mode, Track mode)

Maintains optimum battery temperature in preparation for diverse driving situations.

- Drag mode : Maintains battery temperature at 30-40°C to ensure maximum performance in a short timeframe.
- Track mode : Maintains battery temperature at 20-30°C for sustained driving.

Track SOC (State of Charge)

Displays energy consumption levels from the previous lap to allow the driver to control battery levels during circuit driving.

02 Linear route

N e-Shift / N Active Sound+

Allows driver to closely control the car's movements by changing speed virtually, with three driving sounds to choose from. (Ignition / Evolution / Supersonic)

N Launch Control

Allows car to accelerate easily when starting from a stop and provides optimized motor torque and wheel slip control based on road grip level (low, medium, or high).

NGB (N Grin Boost)

Maximizes acceleration performance by making the battery and motor more responsive and able to operate at maximum output over a designated period of time.

Listen to audio samples of N e-Shift and N Active Sound+

03 Curved route

N Pedal

Enables agile handling through the quick transfer of weight using strong regenerative braking (when the accelerator pedal is not depressed).

N Torque Distribution

Allows the driver to decide the driving power to be delivered to the front and rear wheels.

N Drift Optimizer Pro (with Torque Kick)

N Drift Optimizer Pro is a function that prioritizes the transfer of driving power to the rear wheels to ensure smooth drifting and optimizes vehicle control. N Torque Distribution has 10 levels of adjustment. A professional driving mode is also available.

More on
N Exclusive functions

EV Convenience

Can be quickly recharged by even a high-output, high-voltage charging system.

Multi-high-speed charging system

The IONIQ 5 N is equipped with the multi-high-speed charging system (400V / 800V), which is compatible with a wide range of charging infrastructures.

Rapid charging
(350kW, at highest-allowable battery temperature)

18min

Can go from 10% to 80% in as little as 18 minutes with an 800V charger. Convenient for linked or emergency charging.

Maximum driving distance for one charging

351km

The use of a large-capacity battery pack (84.0kWh) makes the IONIQ 5 N an electric car that can be taken on long-distance drives, in addition to shorter urban trips.

Regen control paddle shift

Allows quick and easy change in cruise regeneration level (coast regen)* via an N-exclusive paddle shift, with five levels for regular driving (0-4) and three for the N pedal (1-3).

* Coast regen: Recovers energy through the regeneration function of the motors when driving for a prolonged period without using the accelerator pedal, not to be confused with regenerative braking via cooperative control.

Outdoor V2L

Passengers can use a wide selection of electronic devices outside the vehicle as well as inside through the outdoor V2L function. The outdoor V2L function ensures a comfortable experience for passengers during outdoor activities in virtually any environment.

Hyundai SmartSense

Hyundai SmartSense keeps the driver and passengers safe and protected.

More on
Hyundai SmartSense

Forward Collision-avoidance Assist (intersection crossing/front oncoming/ changing lanes in oncoming traffic/approaching from either side/ evasive steering assist)

This function, after scanning the vehicle's immediate surroundings, issues warnings of collision risk. If, after a warning is issued, the vehicle in front suddenly slows down or the risk of (front) collision with a car, motorcycle, pedestrian, or bicycle increases, automatic control is activated. If, while making a left turn at an intersection with the turn signal on, the risk of collision increases with a car or motorcycle approaching from the opposite side or with a car approaching from the left or right while going straight at an intersection, automatic braking will be activated to help the driver maintain control of the vehicle.

Lane Following Assist

This system keeps the car in the center of the lane.

Blind-spot Collision-avoidance Assist

A warning is issued if risk of collision with the vehicle next to or behind you is detected while changing lanes. If, while attempting a forward exit (from a parallelparked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

Rear Cross-traffic Collision-avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

High Beam Assist

Automatically brightens or turns down the head lamps after ascertaining the brightness of the driver's surroundings or the lamps of an oncoming car or a car driving in front.

Navigation-based Smart Cruise Control (safety speed zone/ curve control/access road)

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reduced-speed zone, the vehicle is brought back to its designated speed. This system also helps maintain a safe driving speed at the entry or exit point of a highway.

Highway Driving Assist 2

This system helps to not only maintain a safe distance with the vehicle in front on a highway or a regular road by driving at a uniform speed but also to keep the vehicle in the center of the lane on a curved road. If you engage the turn signal in the direction you wish to change lanes in, the vehicle will automatically move over (HDA 2 only works above a certain speed).

* Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.

* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions.

In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.

* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

IONIQ 5 N

IONIQ 5 N (Performance Blue Matte)

Full LED headlamps (projection type), LED DRL & turn signal lamps

Rear wiper

Black outside mirror (heating, power-folding, power adjustment, LED turn signal lamps)

12.3-inch, full-size, color LCD cluster (with exclusive N graphic design)

Power windows with pinch protection (all seats)

Dual-zone full automatic air conditioning (with micro air filter, auto defog system, fine dust sensor, air cleaning mode, and after-blow function)

N-exclusive metal doorstep plate (black-anodized/N logo/checkered flag graphic)

N-exclusive metallic pedal & footrest

BOSE premium sound (8 speakers and external amp)

Indoor V2L

* The specifications in this brochure may vary by model and options included. For detailed specifications, please refer to the price list for the relevant month.

N Brand Fast-Charging Station

To ensure an enjoyable track experience for IONIQ 5 N customers, Hyundai Motor provides free charging with the N Brand fast-charging station at Inje Speedium, Korea's foremost motor racing circuit.

Location

- Parking Lot 2, Inje Speedium
- Address: 130 (1500, Buk-ri, Girin-myeon), Sanghadap-ro, Inje-gun, Gangwon-do, Republic of Korea

Benefit eligibility/details

Charging fee

(Unit: KRW/kWh)

Category	IONIQ 5 N customer	Hyundai EV customer	(Non-member) EV customer
General	Free	260	440
Roaming		347.2	

※ Roaming businesses: 26 private (e.g. ChargEV, KEVCS, Daeyoung Chaevi, TMAP, Easy Charger, LG UPlus) / 1 public (Korea Environment Corporation)

※ Figures as of Nov. 22, 2023

Fees for EV customers (both Hyundai members and non-members) may vary depending on company policy. (Fees for IONIQ 5 N customers are not subject to change.)

* The above fee discounts are provided only for the N Brand fast-charging station at Inje Speedium.

* The above benefits will be provided for the duration of the fast-charging station's operation (until 2028) and are subject to change depending on company policy/circumstances.

* N Brand/Hyundai charging discounts are provided after confirmation of EVSIS membership (membership card, QR code, NFC).

* The above discounts are not provided for roaming charging or purchases made with an EVSIS gift certificate or subscription plan.

* In the event of a communication error between the charging station and your vehicle, you may be unable to receive the above discounts. (Customer services: 1577-1556)

Hyundai N app

- Can use additional functions after acquiring Bluelink membership (e.g. link to driving data, ranking data).
- Stores/analyzes actual driving data collected while on the track.
- Provides circuit driving data to other app users.
- Can be used simultaneously on smartphone and tablet PC (with at least Android 6.0 or iOS 11.0).
- Provides data on motor/battery temperature, G-Force, RPM, torque, lap times, and more.
- How to download: Search "Hyundai N" on Google Play (Android) or App Store (iPhone)

Dimensions

Unit: mm

Classification	IONIQ 5 N
Overall Length (mm)	4,715
Overall Width (mm)	1,940
Overall Height (mm)	1,585
Wheel Base (mm)	3,000
Wheel Tread, Front (mm)	1,667
Wheel Tread, Rear (mm)	1,672
Battery type	Lithium-ion
Battery capacity (kWh)	84.0
Max. Power (kW)	478
Max. Torque (Nm)	770

Model	Fuel type	Rated voltage of storage battery (V) / Capacity (Ah)	Max.Power (kW/PS)	Curb weight (kg)	Tire (inch)	Fuel efficiency reported to the government (fuel efficiency) (km/kWh)			Maximum driving distance for one charging (km)		
						City	Highway	Combined	City	Highway	Combined
IONIQ 5 N	Electricity	697/120.6	448/609 478/650 (when using N Grin Boost)	2,200	21	4.0	3.4	3.7	377	319	351

※ All figures satisfy standards designated by the Ministry of Trade, Industry & Energy.

Maintain a constant speed to drive more efficiently.

■ The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. ■ Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. ■ The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. ■ Leather (seats, wrapped parts) is partially mixed with synthetic leather and/or other materials (e.g., fabric). ■ Vehicle colors presented here may differ from actual appearance. ■ Driving range may vary depending on the driver's habits, road conditions, outdoor temperature, and air conditioning settings. ■ A drop in outdoor air temperature (in winter months) may result in a shorter range due to a decrease in battery performance. ■ This EV is heavier than the internal combustion engine model due to its high-capacity battery. Depending on the specifications for Korean automated parking garages, it may not be possible to park the EV. ■ Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. ■ For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For detailed specifications, please refer to the price list for the relevant month.

How to purchase an electric car

① Sign a car sales contract

- Car contract

② Apply for subsidy

- Fill out electric car subsidy application for the local government of jurisdiction

- Submit application

- Receive results

③ Get information on home charger

- Consultation available for those who wish to install a charger at home

- Information on one-stop consulting services, connection to Hyundai Motor partner company

④ Car allocation, car release

- Check is made on eligibility for and amount of electric car subsidy (from local government of jurisdiction) by 10 days before car allocation

- Car will be released if there are no outstanding issues

⑤ Apply for payment of subsidy

- Application process for payment (wire transfer) of subsidy to the local government of jurisdiction must be completed within 10 days of the car's release

- Once subsidy is confirmed to have been wire-transferred to Hyundai Motor, subsidy amount is subtracted from price that needs to be paid by customer

⑥ Install charger

- Home charger will be installed for customers who requested it

- Final check will be done to ensure that the customer is satisfied with the car.

IONIQ 5 N Warranty information

- **Warranty period for separately-insured electric car parts :** 10 years, 160,000km ※ High voltage battery: 10 years, 200,000km
- **Related parts :** Drive motor, Reducer, High voltage battery, Inverter, ICCU (LDC+OBC), Electric vehicle system control device (VCU)

For when thinking of buying, and maintaining my car!

Hyundai Motors' various services are prepared to assist from start to finish!

Convenient test drive service

Step 1: Make a test drive reservation (website, phone, and car coordinator)

Step 2: Fill out a consent form at the relevant driving center

Step 3: Go on a test drive

Step 4: Receive a purchase consultation (e.g. estimate, and purchase conditions)

Test drive reservation
(website)

New vehicle purchase benefits

- Bluemembers points are accrued at a fixed rate depending on the number of new vehicles purchased

* Eligible types: Passenger, SUV, MPV (STARIA), Light Commercial Vehicle (PORTER), and ST1

※ **Rates for individual members:** 0.7 to 3.0% for individual/small business owners, 0.7% for private taxis, and 0.3% for renting/leasing (non-corporate) (for both first-time and repeat purchasers)

※ **Rate for corporate members:** 0.3% (for both first-time and repeat purchasers)

For rental/lease companies pre-designated by Hyundai Motor: 0.2%

Extra 0.1% in points for long-term drivers applying for Bluemembers membership for the first time

Further information
on point accrual rate

Smart car maintenance

1. Car Life services

- Services that can be applied for via myHyundai app: MyHyundai Car Life, Pickup-and-Charge, EV Safety Care, Lucky Pass H, and charging discounts for EVs

Download
myHyundai

All Care Service
Guide (e-Book)

2. Warranties and services

- Warranty system in which customers can choose scope and/or duration, Bodycare, and Warranty Plus

※ Bodycare (Warranty Plus) is provided free of charge to individual and corporate members who purchase an IONIQ 5 N.

3. Preventative and inspection services

- To help keep your car in top shape: Blue Basic Inspection, Before Service on Wheels

4. Emergencies and maintenance services

- For an emergency or when receiving your car: SOS emergency response, on-site charging, and Home-to-Home

- For more assurance when using your car: excessive repair fee prevention program, and car support services

Tip Anyone who has a driver's license and is at least 21 years old can apply for a test drive.

The driver is required to carry a presentable license in person to apply for the test drive.

Bluemembers points are accrued with each Hyundai EV credit card use.

Bluemembers partner companies offer diverse mobility and lifestyle/charging benefits. Don't miss out!

※ Holders of (previously issued) Bluemembers partner credit cards will continue to receive both

M points and Bluemembers points.

Before Service on Wheels is available only by individuals who own (or have accumulated in one place) at least 20 Hyundai vehicles.

2025 EV EVerycare

From purchasing to selling, we provide assistance in each phase of the electric car lifecycle to make sure your investment is worthwhile.

When purchasing

Benefit 1. EV purchase benefit (choose one)

One out of the following three services provided

※ Eligibility: Bluemembers customers who have purchased an IONIQ 5, IONIQ 6, or KONA Electric

① Free 800,000 charging credits

- Recommended for those who live in multi-unit housing or use a communal charger

② Free home charger (including installation cost)

- Recommended for those who live in single-unit housing or own a private parking space
(※ Does not include basic facility charge)

③ Two EV-exclusive tires

※ Must apply within two months of the car's release month

Benefit 2. EV warranty extension

Warranty Plus and Body Care services are provided free of charge to ensure that all customers can use their electric cars without maintenance concerns.

※ Eligibility: Individuals or private business owners who have purchased an IONIQ 5, IONIQ 6, or KONA Electric

- Warranty Plus: (Extends parts warranty period by two years (or 40,000km)

- Body Care: (Guarantees repairs/changes related to exterior damage for up to one year (or 20,000km) after the car's release

Benefit 3. Blue Basic Inspection

Provided annually for 10 years from date of release

※ Eligibility: Bluemembers customers who have purchased an EV, including passenger vehicle, SUV, MPV (STARIA), and Light Commercial Vehicle (PORTER Electric)

Benefit 4. Replacement with new vehicle

If a total loss occurs within two year of the car's release, funding is provided for the purchase of a new vehicle

Benefit 5. EV charging solutions

We offer a wide range of charging solutions, including on-site charging and Pick Up & Charge, as well as charging solutions

Benefit 6. EV fire safety program

Up to KRW 10 billion is provided in the event an EV-related fire causes damage to other cars (for 10 years from date of release).

Benefit 7. Residual value guarantee

Need to sell your vehicle? We have it covered! We guarantee the market price of a secondhand EV between two and three years old at up to 55% of the original purchase price

※ Eligibility: Individuals who have purchased an IONIQ 5, IONIQ 6, or KONA Electric

When driving

When selling

※ For further information on benefits, please refer to Hyundai Motor's website or make an inquiry to a branch or dealership.
