

PALISADE

For all the worlds you inhabit

Set off on your favorite journeys with the PALISADE, the flagship SUV of Hyundai Motors.

The PALISADE's signature elegance sets a new standard for large scale SUVs.

Calligraphy(Robust Emerald Pearl)

Design

The PALISADE, befitting its identity as a flagship SUV, has a powerful presence.

Calligraphy front design(Robust Emerald Pearl)

Calligraphy rear design(Robust Emerald Pearl)

Calligraphy-exclusive design
(20-inch front-processed alloy wheels / body-colored cladding)

Calligraphy(Robust Emerald Pearl)

Calligraphy Black Edition

The chic all-black design offers unique aesthetic value.

Nappa leather seats with Calligraphy Black Edition exclusive suede quilting

Calligraphy Black Edition rear design(Abyss Black Pearl)

Calligraphy Black Edition-exclusive 20-inch alloy wheels

Calligraphy Black Edition(Abyss Black Pearl)

Space

High-end materials and a spacious interior make the riding experience even more comfortable.

Calligraphy(Warm Gray)

* The screen layout/design of the infotainment system may change with the updates.

1st row relaxation comfort seats

Both front seats are relaxation comfort seats that offer passengers a restful in-vehicle experience.

2nd row smart one touch walk-in & folding

Press the walk-in button to make the 2nd row seats fold down and move forward. This will allow passengers in the 3rd row seats to easily get in and/or out of the vehicle.

3rd row power folding seats

Press the button in the luggage compartment to fold/unfold the 3rd row seats.

Le Blanc

The Le Blanc trim is equipped with popular safety/convenience features and a sophisticated interior.

Le Blanc(Cool Gray)

* The screen layout/design of the infotainment system may change with the updates.

Convenience

Control your vehicle with ease using the latest convenient functions.

12.3-inch navigation system(Bluelink, phone projection, In-car Payment)

The PALISADE is equipped with several driver-friendly functions, including a high-resolution display, voice recognition vehicle control, and wireless infotainment system updates.

* The screen layout/design of the infotainment system may change with the updates.

Digital key 2 touch

The vehicle can be locked or unlocked or the ignition turned on via iPhone, Apple Watch, or Android smartphone(such as a Samsung phone). The digital key can be shared with up to 7 devices.

* Please refer to Hyundai Motor's website for a list of eligible models.

Digital center mirror

The camera on the digital rearview mirror allows you to see what is behind the vehicle in incredible clarity.

Calligraphy(Brown)

* The screen layout/design of the infotainment system may change with the updates.

Driver's ERGO motion seat

The seat is fitted with air pockets to help the driver maintain an optimum posture.

Head-Up Display

Information on the vehicle or current driving conditions is projected onto the windshield.

Dual-zone touch climate control

The touch panel can be used to adjust air conditioning for all seats. Turning off the engine activates After-Blow, which dries up the remaining condensate to prevent bad odors and/or mold.

Active Noise Control

It is a function that creates a quieter indoor environment by analyzing the sound from the engine in real time and generating a sound wave that is 180 degrees out of phase with the engine sound.

Blind-spot View Monitor

Engaging the turn signal in either direction shows the driver video footage of what's next to and behind the car in the instrument cluster.

Surround View Monitor

This function displays real-time video footage of the vehicle's immediate surroundings to ensure safe parking.

Remote Smart Parking Assist

This function lets the driver enter and leave a parking space from outside of the car.

Smart power tailgate

If the driver stands near the rear of the vehicle for three seconds with the smart key in his or her possession, the tailgate will open automatically, requiring no other action and enabling the driver to remove items from the vehicle easily and conveniently.

* The driver can adjust the maximum height to which the tailgate opens by setting the tailgate to the desired height and pressing and holding the “Close” button for an extended period of time.

2nd/3rd row folding

2nd/3rd row
6-split folding

2nd/3rd row
4-split folding

3rd row folding

8-seater

Safety

The PALISADE's first priority, in any situation, is the safety of the driver and passengers.

10 airbag system

Advanced airbags for front seats, center side airbags for the front seats, front/2nd row side airbags, driver's knee airbags, and curtain airbags keep all passengers well protected (includes rollover-resistant sensor).

Back up guide lights

When the car is backing up, "guide lights" are projected onto the road behind the car to clearly show the driver's intention to back the car up to prevent accidents involving nearby vehicles or pedestrians.

Multi-Collision Brake System

If airbags are activated due to a front or side collision, an autonomous emergency brake is activated to reduce the possibility of a second accident and/or multi-vehicle collision.

Rear Occupant Alert

After ascertaining whether there is a passenger in the rear seats of the vehicle, based on whether the rear door was opened and internal sensors, this system issues a warning message on the instrument cluster display and a warning sound after the driver has stopped the vehicle, turned off the ignition, and opened the driver's-side door, prompting the driver to check the passenger seat.

Performance

The high functioning powertrain and drive modes, which can be changed depending on the road conditions, guarantee a safe and fun driving experience.

Prestige(Trailer package & Self levelizer options applied / Abyss Black Pearl)

Diesel 2.2 engine

202 Max.Power
PS/3,800rpm

45.0 Max.Torque
kgf.m/1,750~2,750rpm

12.4 Combined fuel economy

2WD, without built-in cam)

Gasoline 3.8 V6 engine

295 Max.Power
PS/6,000rpm

36.2 Max.Torque
kgf.m/5,200rpm

9.3 Combined fuel economy
km/ℓ(18-inch tires/8-speed A/T/
2WD)

Towable weight

2,000 (If Trailer package is selected)
kg

HTRAC(electronic AWD system)

This function actively distributes traction over the front and rear wheels according to the driving environment.

Drive mode(COMFORT, ECO, SPORT, SMART) /

Multi Terrain Control(SNOW, MUD, SAND)

The driver can choose from diverse drive modes based on personal preferences or road conditions. The status of each drive mode can be verified via cluster.

Hyundai SmartSense

Hyundai SmartSense keeps the driver and passengers safe and protected.

Forward Collision-avoidance Assist

In the event that danger of a forward collision is detected(sudden decrease in speed by the vehicle in front, appearance of a standing vehicle or pedestrian, etc.), an alarm is sounded. If danger of collision increases even after the alarm, brakes are automatically activated. The brakes are also automatically activated in the event of a collision risk with an approaching bicycle rider or with a car that is approaching while you are making a left turn at an intersection.

* Since the advanced driver assistance system(ADAS) is a function that assists the driver's operation, always drive with caution.

* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.

* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

Blind-spot Collision Warning(driving) / Blind-spot Collision-avoidance Assist(forward exit)

A warning is issued if risk of collision with the vehicle next to or behind you is detected while you are using the turn signal to change lanes. If, while attempting a forward exit (from a parallel-parked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

Safety Exit Assist

A warning is sounded in the event a vehicle is detected approaching from the side or rear when a passenger is opening the door to get out of the vehicle(while the vehicle is parked). The electronic child lock is also activated to keep the door closed.

Navigation-based Smart Cruise Control(safe/curve/access road)

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reduced-speed zone, the vehicle is brought back to its designated speed. In a curved section of a road, speed is reduced just before entering the curved section. After leaving the curved section, the vehicle is brought back to its designated speed. This system also helps maintain a safe driving speed at the entry or exit point of a highway.

* Since the advanced driver assistance system(ADAS) is a function that assists the driver's operation, always drive with caution. * The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.

* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference. * The screen layout/design of the infotainment system may change with the updates.

Highway Driving Assist 2(including lane change assist)

This system helps to not only maintain a safe distance with the vehicle in front on a highway or a regular road by driving at a uniform speed but also to keep the vehicle in the center of the lane on a curved road. If you engage the turn signal (while holding the steering wheel) in the direction you wish to change lanes in, the vehicle will automatically move over(HDA 2 only works above a certain speed).

Lane Following Assist

This system keeps the car in the center of the lane.

Rear Cross-Traffic Collision-Avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

Safety security

- Automatic notification of airbag deployment
- SOS emergency response
- Theft tracking
- Theft alert
- Driver Attention Warning
- Advanced Rear Occupant Alert
- **Electric car battery monitoring**
*Battery malfunction alert
(for BlueLink members only)

Remote control

- Remote air conditioner control
- Remote charging control
- Remote door open/lock
- Remote window control
- Parked location confirmation
- Destination data sending, and more!

11 functions

Vehicle management

- Car diagnostics test
- Journey report
- Over-the-Air update
- Low battery notification
- Safe driving habits
- Remote smart diagnosis

Navigation

- Road directions (BlueLink)
- Provision of traffic information
- Portal site search of surrounding area
- Sharing of current car location
- Directions to destination

*Car purchasers who are also first-time BlueLink members will receive Basic Service free of charge for five years from the date of membership application. For the subsequent five years, they will be provided with Light Service (SOS emergency response, automatic notification of airbag deployment, traffic information, electric car battery monitoring, and etc.) free of charge.

*All of the above-named services (e.g. Hyundai Digital Key 2, In-car Payment, OTA software update, and electric car battery monitoring) can be used by BlueLink members only.

*Electric car battery monitoring: In the event a battery malfunction is detected, a notification is sent to the driver (BlueLink members only).

*High-quality audio and OTT & video streaming are add-on services that require a separate purchase of BlueLink's streaming data plan. You must also link your streaming platform (Genie Music, Melon, WATCHA, Wavve, or YouTube Premium) accounts to the app or the car. Standard Youtube and U+ Mobile TV can be used without logging in.

*Inquiries: BlueLink KakaoTalk Customer Service Center (enter 'BlueLink' in KakaoTalk search screen and add as friend)

*If "Built-in cam" is not mentioned for a particular model, it means that fuel efficiency is the same regardless of the presence of a built-in cam.

Maintain a constant speed to drive more efficiently.

-The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. -Some parts might be modified without notice to comply with stricter diesel emissions regulations. These changes might have an effect on fuel efficiency figures. -Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. -The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. -The engine performance described above is the "Net Number," a new measure reflecting exhaust resistance that complies with legislation enforced by Korea's Ministry of Land and Transport since 1997. It can be marginally lower than "Gross Output Number," the previous measurement. -Leather seats include some synthetic leather. -Vehicle colors presented here may differ from actual appearance. -Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide.

-Use of engine oil or fuel that is of low quality may result in damage to the vehicle. -For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.
