LED rear combination lamps
18-inch alloy wheels & pirelli tires

Seamless Horizon Lamp, Full LED headlamps(projection type)

Interior

The hi-tech panoramic curved display and simple interior design take passengers to even greater heights of satisfaction.

Inspiration(Greige)

* The screen layout/design of the infotainment system may change with the updates.

Hyundai's next-generation infotainment system(ccNC: connected car Navigation Cockpit)

The panoramic curved display's cluster, navigation tool, and head-up display all feature the same graphic theme, giving them a streamlined look. Functions include natural language-based voice recognition, media streaming, and real-time road navigation.

* The screen layout/design of the infotainment system may change with the updates.

SONATA Interior
Take a closer look

Column-Type Shift By Wire

The SONATA is intuitively controlled through a Column-Type Shift by Wire system, enabling smooth shifting.

Dual-zone full automatic air conditioning(with fine dust sensor, air cleaning mode, auto defog system, and after-blow function)

The touch-operated, wide-screen air conditioning controller allows touch control of seat heating/ventilation and steering wheel heating.

Function

Control your vehicle with even greater ease through the latest features.

Indoor fingerprint authentication system(startup/payment)

Through fingerprint recognition, you can start your vehicle or use Hyundai CarPay.

Digital key 2

The vehicle can be locked or unlocked or the ignition turned on via iPhone, Apple Watch, or Android smartphone(such as a Samsung phone).

The digital key can be shared with up to 15 devices.

* Please refer to Hyundai Motor's website for a list of eligible models.

Smart power trunk

If the driver stands near the rear of the vehicle for three seconds with the smart key in his or her possession, the trunk will open automatically, requiring no other action and enabling the driver to remove items from the vehicle easily and conveniently.

Remote Smart Parking Assist

This function lets the driver enter and leave a parking space from outside of the car. While outside the vehicle, the driver can use the smart key to move the vehicle forward or backward.

Surround View Monitor

This function displays real-time video footage of the vehicle's immediate surroundings to ensure safe parking.

Blind-spot View Monitor

Engaging the turn signal in either direction shows the driver video footage of what's next to and behind the car in the instrument cluster.

* The screen layout/design of the infotainment system may change with the updates.

Cutting-edge technologies provide an advanced mobility experience that has been designed to satisfy practical needs.

Motorized rear seat curtain

The curtain that blocks sunlight from filtering in through the rear window can be controlled with a single button. When the vehicle is put in reverse, the curtain automatically lowers to give the driver a clear view.

Active air purification system

The air purification mode is automatically activated to improve air quality inside the vehicle by filtering out fine dust and dehumidifying the indoor air.

Passenger relaxation comfort seats

This easy-to-use, one-touch function allows the passenger in the front to put the seat in the most comfortable position possible for them.

Hyundai CarPay/e hi-pass

By linking the vehicle to Hyundai CarPay, the driver can apply for/manage the e hi-pass and pay toll fees even without a physical credit card.

* e hi-pass can be used after adding hi-pass.

* The screen layout/design of the infotainment system may change with the updates.

BOSE premium sound(12 speakers, external amp)

Enjoy the rich quality offered by a premium BOSE sound system, which is installed with 12 cutting-edge speakers.

SONATA Function
Take a closer look

Built-in cam 2

Exclusive, high-resolution, front and rear-view cameras offer sharp video at any time of day along with audio recording, large-capacity external storage, OTA provisioning, and saving/playback of driving data(including map link). Bluelink enables the transmission of shock sensor-activated videos(taken while parking) and provides information on the status of the built-in camera.

Augmented reality navigation

The driver's screen intuitively displays vital information(e.g. destination, vehicle-to-vehicle distance, front vehicle start alarm) through AR technologies.

Performance

Take leisurely drives, made possible by the vehicle's fortified stability and safety features.

Smartstream Gasoline 1.6 Turbo engine

11.1 Combined fuel economy km/ℓ(8-speed wet DCT/19-inch)

Hyundai SmartSense

Hyundai SmartSense keeps the driver and passengers safe and protected.

Forward Collision-avoidance Assist 1.5

This function, after scanning the vehicle's immediate surroundings, issues warnings of collision risk. If, after a warning is issued, the vehicle in front suddenly slows down or the risk of (front) collision with a car, motorcycle, pedestrian, or bicycle increases, automatic control is activated. Automatic control is also activated when there is an increased risk of collision from a vehicle approaching from the front while making a left turn at an intersection (with turn signal) or from a motorcycle or car driving in front and in the same lane.

- * The Advanced Driver Assistance System (ADAS) is a group of functions that help the driver operate the vehicle more safely. Please make sure to drive carefully.
- * Depending on the environment and driving conditions, the given function may not operate properly. Please refer to the manual for details.
- * The above specifications are applied differently depending on the trim, powertrain, and options.

Blind-spot Collision-avoidance Assist

A warning is issued if risk of collision with the vehicle next to or behind you is detected while changing lanes. If, while attempting a forward exit (from a parallel-parked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

Safe Exit Warning

If a vehicle approaching from the back is detected after the car is parked and the passengers are opening doors to get out, a warning is issued.

Hyundai
SmartSense
Take a closer look

Navigation-based Smart Cruise Control(Safe/Curve)

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reduced-speed zone, the vehicle is brought back to its designated speed.

Lane Following Assist

This system keeps the car in the center of the lane.

Rear Cross-Traffic Collision-avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

HEV

Improved performance functions enhance the hybrid nature of the driving experience.

12V battery reset button(Hybrid only)

A high-voltage, integrated battery system not only stores and supplies electricity but also protects the vehicle via battery system monitoring during torque assist while driving or when the battery has died due to prolonged disuse.

Paddle shift(regenerative control)

Regenerative braking is level-adjustable, allowing driving performance that matches the driver's style and/or preferences.

Hybrid-exclusive contents

The SONATA offers several types of exclusive information, including the vehicle's status while driving, fuel efficiency, energy flow, and ECO driving status, to maximize the driving experience.

Ride comfort technologies(e-Comfort Drive)

- **e-Ride Gen2**

When driving over a speed bump or accelerating, the torque of the motor is controlled to minimize shaking.

Driving performance-enhancing technologies(e-Dynamic Drive)

- **e-Handling**

When entering or leaving a lane on a curved section of road, the vehicle's center of gravity shifts with the torque of the motor to improve steering responsiveness and safety while turning.

- **e-EHA(Electrically-Evasive Handling Assist)**

This function enables timely avoidance of a pending collision and also ensures vehicle stability after the collision has been avoided.

- **e-Traction**

The SONATA offers improved manageability and ride comfort during sudden acceleration or cornering.

- **e-DTVC(Electrically Assisted Dynamic Torque Vectoring Control)**

This function offers improved steering linearity by utilizing torque vectoring technology to control driving force.

N Line

※ Trims not indicated as having a built-in cam installed would have the same fuel efficiency even if a built-in cam were installed.

Maintain a constant speed to drive more efficiently.

-The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. -Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. -The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. -The engine performance described above is the "Net Number," a new measure reflecting exhaust resistance that complies with legislation enforced by Korea's Ministry of Land and Transport since 1997. It can be marginally lower than "Gross Output Number," the previous measurement. -Nappa leather/leather seats include some synthetic leather. -Vehicle colors presented here may differ from actual appearance. -A high-performance brake that has been applied with a low steel pad may create noise(due to the nature of the performance functions). This is a normal phenomenon. -Some specifications may vary for rented/handicap vehicles and regular vehicles. -All of the measurements in this brochure apply to the Gasoline/Hybrid/N Line models. Therefore, the specifications and the features of the LPG models might differ. -Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. -Use of engine oil or fuel that is of low quality may result in damage to the vehicle. -For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

SONATA Hybrid Warranties	
Warranty for Hybrid parts	10-year/200,000-kilometer warranty - Electric motor, Hybrid high-voltage battery HPCU(Hybrid Power Control Unit)
Guaranteed vehicle trade-in rate program	Customers may choose to apply for this program upon purchasing a vehicle. It focuses on customer satisfaction by providing a high guaranteed vehicle trade-in rate for customers who purchase another vehicle from Hyundai Motor within three years of applying for program membership. - Eligibility: First-time purchasing customers(excluding Hyundai Motor employees, individuals, entrepreneurs, procurement-related purchasers, etc.) - Standard guaranteed trade-in rate: Under 1 year: 77%, Under 2 years: 70%, Under 3 years: 64%

※ The benefits offered through the warranties above may be subject to change.
※ Contact a branch or dealership for details.

The advanced technology of Hyundai's Bluelink system helps keep both the driver and the vehicle safe in any situation. Bluelink is always there to keep you safe, regardless of the location or time of day. Experience the unique joy of safe and comfortable driving.

Remote control

In the extremely hot summer or cold winter months, you can link your smartphone to the air conditioner or heater to set and control the temperature inside the vehicle. Enjoy a pleasant driving experience with Bluelink.

Safety security

The Bluelink Center works 24 hours a day, 365 days a year. If an airbag opens due to an accident, the Center automatically detects your location and takes appropriate actions according to the situation, such as contacting the police, ambulance, insurance company, etc.

Vehicle management

Services include real-time trouble detection while the vehicle is running and regular vehicle inspections on pre-arranged dates. In the event of vehicle trouble, immediate professional consulting is available, and you may conveniently make reservations for repair at the time and location of your choice.

Navigation

This function enables the driver to conveniently search for destinations through voice command and suggests optimum routes based on an independent analysis of real-time traffic information. The driver can search a database of upto- date information to find even newly created destinations.

Streaming services

Passengers can enjoy not only audio content from mobile apps such as Genie Music, Melon, and Poddbang but also a wide range of video content (YouTube, U+ Mobile TV, WATCHA, and Wavve) from the comfort of the vehicle. (High-quality audio and OTT & video streaming are add-on services).

*Free of charge for 5 years for first-time Bluelink members after vehicle purchase. Light Service(emergency call, airbag deployment notification, monthly report, traffic data, etc.) is provided free of charge for additional five years. *Inquiries: Bluelink Kakao Talk Customer Service Center(enter 'Bluelink' in Kakao Talk search screen and add as friend)
*Certain functions (Digital Key 2, Hyundai CarPay, OTA(over-the-air) software updates, and wireless infotainment system updates) are provided only to Bluelink members. *Over-the-air software update is available during the Light Service period.
*High-quality audio and OTT & video streaming are add-on services that require a separate purchase of Bluelink's streaming data plan. You must also link your streaming platform (Genie Music, Melon, WATCHA, Wavve, or YouTube Premium) accounts to the app or car. U+ Mobile TV and YouTube (not Premium membership) can be used without logging in.
