* Scan the QR code to explore the TUCSON.

Exterior

The rugged design and sporty character lines visualize your love of dynamic style.

Inspiration (Ecotronic Gray Pearl)

Dark chrome radiator grille, Glossy black B/C pillar, and Outside mirror chrome garnish

More on Exterior

Rear design (LED rear combination lamps)

Full LED headlamps
(projection type, hidden lighting DRL/intelligent front lighting)
19-inch alloy wheels & Michelin tires

Interior

The horizontal layout is hi-tech while creating a sleek appearance.

Inspiration (Green/Black/Gray)

* The screen layout/design of the infotainment system may change with the updates.

More on Interior

Panoramic curved display

Floating console

Column-Type Shift By Wire (vibration warning)

* Provides vibration when turning to R (reverse) gear to prevent operation error.

2nd-row 60/40-split folding seats

2nd-row fold-and-dive * Not available with gasoline 1.6 turbo hybrid.

Black Exterior

More on
Black Exterior

The addition of black accents to the exterior highlights the cohesive design and urban elegance.

Inspiration Black Exterior (Phantom Black Pearl)

Black Exterior exclusive design (front bumper)
Black Exterior exclusive design (rear bumper)

Black DLO molding
19-inch exclusive black alloy wheels & tires

* Exterior colors : Available in Phantom Black Pearl, and Creamy White Pearl.

* Michelin tires are only applied to Gasoline 1.6 Turbo Hybrid model.

Performance

More on Performance

The TUCSON is available in multiple powertrains that blend engine power with fuel efficiency, including hybrid, and gasoline engines.

Inspiration (Ecotronic Gray Pearl)

Smartstream Gasoline 1.6 Turbo engine

180 Max.Engine Power PS/5,500rpm

27.0 Max.Engine Torque kgf·m/1,500~4,500rpm

12.5 Combined fuel economy km/ℓ (7-speed DCT/2WD/17-inch)

Smartstream Gasoline 1.6 Turbo Hybrid engine / Electric motor

235 Max.System Output PS (Gasoline engine : 180PS, Electric motor : 47.7kW)

27.0 Max.Engine Torque kgf·m/1,500~4,500rpm

264 Max.Motor Torque Nm

16.2 Combined fuel economy km/ℓ (6-speed A/T//2WD/17-inch, without built-in cam)

Multi Terrain Control

Offers four-wheel drive and integrated control of the engine, transmission, and brakes to ensure optimum performance regardless of the terrain.

* Not available with gasoline 1.6 turbo.

Function

New, cutting-edge technologies and a slew of user-friendly features enable a smart driving experience.

OTA Software Update

If the vehicle is not equipped with the latest software version, once the ignition is turned off, a wireless software update will begin, with the driver's consent.

* The screen layout/design of the infotainment system may change with the updates.

Digital key 2

The vehicle can be locked or unlocked or the ignition turned on via iPhone, Apple Watch, or Android smartphone (such as a Samsung phone). The digital key can be shared with up to 15 devices.

*Please refer to Hyundai Motor's website for a list of eligible models.

In-car fingerprint authentication system (personalization, startup, payment)

This system conducts the authentication process (es) necessary to make a smart payment or deactivate valet mode. The vehicle can be started or driven via fingerprint recognition even if you do not have your smart key with you.

Built-in cam 2

Exclusive, high-resolution, front and rear-view cameras offer sharp video at any time of day along with audio recording, large-capacity external storage, OTA provisioning, and saving/playback of driving data (including map link). Bluelink enables the transmission of shock sensor-activated videos (taken while parking) and provides information on the status of the built-in camera.

More on Function

Head-Up Display

The dashboard and important navigation-related information are displayed on the full-panel glass screen to keep the driver informed without forcing them to take their eyes off the road.

Intelligent Front-Lighting System (IFS)

This system provides an omni-directional front view and increases safety during nighttime driving by maintaining headlight function without creating glare for the car approaching from ahead.

Remote Smart Parking Assist

While outside the vehicle, the driver can use the smart key to move the vehicle forward or backward.

* Not available with gasoline 1.6 turbo.

Smart power tailgate

If the driver stands close to the rear of the vehicle with the smart key on their person, the tailgate will open automatically, after a short period of time, making it easier to load and unload luggage. The extent to which the tailgate opens may be adjusted according to the driver's height or unloading environment.

N Line

More on N Line

A sporty, dynamic design gives the N Line its unparalleled style.

N Line-exclusive radiator grille (including exclusive emblem) / Front bumper & skid plate

The N Line-exclusive radiator grille and bumper design convey an image of high performance.

N Line-exclusive rear spoiler

With its sporty design, the rear spoiler makes the vehicle more aerodynamic during high-speed driving.

N Line-exclusive 19-inch alloy wheels / Body-colored cladding

The N Line-exclusive diamond-cut wheel design presents a strong, stylish image.

N Line-exclusive rear bumper & skid plate / Single twin tip muffler

The N Line-exclusive rear design makes the TUCSON look elegantly sporty.

N Line-exclusive seats (including exclusive emblem) / Red stitching

The suede-applied leather seats and red stitching found throughout the vehicle create a unique aesthetic.

Hybrid

More on Hybrid

Experience even better driving performance and a pleasant ride through e-Motion Drive.

Hybrid-exclusive e-Motion Drive system (e-Dynamic Drive)

In the event of rapid acceleration or a sudden turn, the motor effectively controls the brake, transmission, and/or driving torque, improving the traction and mobility through seamless acceleration and smooth cornering.

Hybrid-exclusive e-Motion Drive system (e-Comfort Drive)

When going over a speed bump or accelerating, the motor controls the vehicle's shaking to make the ride smoother for both driver and passenger.

Hybrid-exclusive AVN contents

The Hybrid-exclusive display ensures a smart driving experience by showing fuel efficiency, energy distribution, and ECO mode, among others.

Infant safety mode

Upon sudden acceleration or stop or parking shock, this function filters the stress felt by an infant/toddler due to the vehicle's height to provide smoother acceleration and a more pleasant ride.

Smart regenerative braking mode

When coasting in neutral, the regenerative braking level is adjusted automatically according to the road gradient, how the approaching car is being driven, and/or data provided by the navigation system or speed camera. This smart regeneration system makes it significantly easier for the driver to control the vehicle.

Hyundai SmartSense

Guarantees safety and convenience while driving or parking through a cutting-edge driver assist system.

Forward Collision-avoidance Assist (vehicles/pedestrians/two-wheeled vehicles/junction turning/front oncoming)

This function, after scanning the vehicle's immediate surroundings, issues warnings of collision risk. If, after a warning is issued, the vehicle in front suddenly slows down or the risk of (front) collision with a car, motorcycle, pedestrian, or bicycle increases, automatic control is activated. Automatic control is also activated when there is an increased risk of collision from a vehicle approaching from the front while making a left turn at an intersection (with turn signal) or from a motorcycle or car driving in front and in the same lane.

Safe Exit Warning

If a vehicle approaching from the back is detected after the car is parked and the passengers are opening doors to get out, a warning is issued

Blind-spot Collision-avoidance Assist

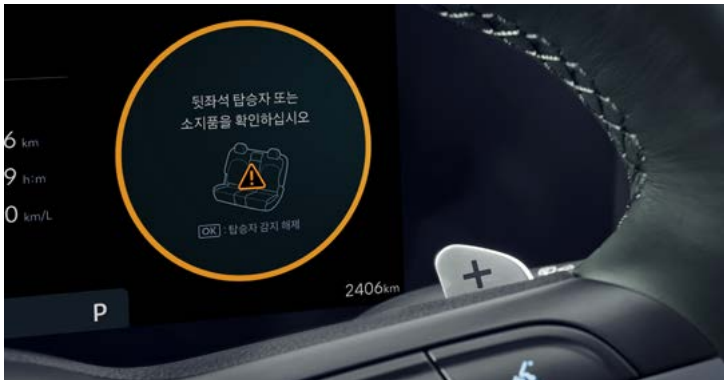
A warning is issued if risk of collision with the vehicle next to or behind you is detected while changing lanes. If, while attempting a forward exit (from a parallelparked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

Lane Following Assist

This system keeps the car in the center of the lane.

* Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.
* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.
* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

More on
Hyundai SmartSense



Highway Driving Assist

This system helps to not only maintain a safe distance with the vehicle in front on a highway or a regular road by driving at a uniform speed but also to keep the vehicle in the center of the lane on a curved road.

Navigation-based Smart Cruise Control (safety speed zone/curve control)

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reducedspeed zone, the vehicle is brought back to its designated speed.

Rear Cross-traffic Collision-avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

Advanced Rear Occupant Alert

A sensitive radar sensor detects passengers inside the vehicle. If the driver leaves behind a child in one of the rear seats, an alarm sounds to notify the driver of such fact and thus prevent a safety-related accident.

* Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.
* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.
* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.
* The screen layout/design of the infotainment system may change with the updates.

TUCSON Hybrid Warranties	
Warranty for Hybrid parts	**10-year/200,000-kilometer warranty** - Electric motor, Hybrid high-voltage battery HPCU (Hybrid Power Control Unit)

※ The benefits offered through the warranties above may be subject to change.
※ Contact a branch or dealership for details.
※ The warranty period starts from the date of new vehicle sale and expires when either the specified period or mileage is reached, whichever comes first.

Maintain a constant speed to drive more efficiently.

-The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. -Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. -The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. -The engine performance described above is the "Net Number," a new measure reflecting exhaust resistance that complies with legislation enforced by Korea's Ministry of Land and Transport since 1997. It can be marginally lower than "Gross Output Number," the previous measurement. -Leather seats include some synthetic leather. -Vehicle colors presented here may differ from actual appearance. -The specifications listed in this brochure may change depending on the model, and they may apply to a car fitted with optional equipment. Please refer to the appropriate price chart for additional information. -Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide -Use of engine oil or fuel that is of low quality may result in damage to the vehicle. -For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.
