Large-capacity disc brakes / Rear multi-link suspension

Gasoline 1.6 Turbo Premium with Full Option in Fiery Red

Safety

1. Safety Exit Assist – This system provides a warning for passengers opening their door after the vehicle comes to a stop by sensing vehicles approaching from the side to prevent passengers from opening their door into oncoming traffic. **2. Advanced Airbags** – Airbags are activated in a manner that most effectively responds to diverse collision conditions, such as having no passenger in the front passenger seat or an infant in a baby seat. **3. Individual Tire Pressure Monitoring System** – This system is designed to monitor the air pressure of each tire and warn the driver of any tire pressure change via the display to prevent accidents. **4. Front and Rear Parking Assist** – This system alerts the driver of obstacles while parking by measuring the distances to nearby obstacles both in the front and rear.

Hyundai SmartSense

1. Forward Collision Avoidance Assist – This system detects vehicles and pedestrians ahead using sensors (camera sensors or camera + radar sensors), alerts the driver of a potential collision via a message and warning sound, and activates the brakes when needed to reduce the severity of a collision. **2. Lane Departure Prevention** – This system is designed to recognize lane lines and take over steering to keep the vehicle centered in its lane if it begins to move out of its lane. **3. Blind Spot Collision Warning** – This system alerts the driver when detecting vehicles approaching at high speeds or from blind spots that are not reflected in side view mirrors. **4. Driver Attention Alert** – This system monitors driving patterns and alerts the driver in five steps via a message and warning sound if any inattentive or fatigued driving pattern is detected. **5. High Beam Assist** – This system recognizes vehicles ahead, oncoming vehicles, and streetlamps at night and automatically switches the headlamps between high and low beam all without your fingers leaving the steering wheel to ensure the safety of all vehicles. **6. Smart Cruise Control** – This system automatically adjusts the vehicle speed and maintains the distance preset by the driver from vehicles ahead without the need to press the accelerator. **7. Rear Cross-Traffic Collision Warning** – This system monitors the area to the right and left when in reverse and alerts the driver of any approaching traffic on either side to prevent potential accidents.

Maintain a constant speed to drive more efficiently.

¶ The above fuel economy was calculated based on standard driving conditions. Actual fuel efficiency may vary depending on road conditions, driving styles, cargo weight, maintenance conditions, and outside temperatures. ¶ Some of the photographed vehicles in this brochure depict optional features for illustrative purposes and may differ from the actual vehicles. ¶ The features, colors, and specifications stated in this brochure are subject to change based on improvements in the vehicle's exterior or performance. ¶ The above engine performance data is based on the net value, which is a legal requirement applied by the Ministry of Land, Infrastructure and Transport from 1997 onwards. To produce the data, an advanced measurement method that takes into account the resistance of vehicle emissions was used. This method may generate results slightly lower than those generated by existing methods based on the gross value. ¶ The leather upholstery partially consists of synthetic leather. ¶ The vehicle colors printed in this brochure may differ from the actual colors. ¶ The specifications of the rental vehicles may be partly different from those of other models. For detailed specifications, please check the price list catalogue for the relevant month.

¶ Hyundai Motor vehicles are sold by Car Masters of Hyundai Motor Company's branches and dealers only at prices uniformly applied everywhere across the country to promote fair business practices. ¶ The failure to use authentic parts and oil products (including engine oil and transmission fluid) recommended by Hyundai Motor Company and/or the use of defective fuel may critically damage your vehicle. ¶ Please refer to the owner's manual for details about new technologies and features stated in this brochure.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For specification details by model, please refer to the monthly price table.

The advanced technology of Hyundai's BlueLink system helps keep both the driver and the vehicle safe in any situation.
BlueLink is always there to keep you safe, regardless of the location or time of day. Experience the unique joy of safe and comfortable driving.

Remote control

In the extremely hot summer or cold winter months, you can link your smartphone to the air conditioner or heater to set and control the temperature inside the vehicle. Enjoy a pleasant driving experience with BlueLink.

Safety security

The BlueLink Center works 24 hours a day, 365 days a year. If an airbag opens due to an accident, the Center automatically detects your location and takes appropriate actions according to the situation, such as contacting the police, ambulance, insurance company, etc.

Vehicle management

Services include real-time trouble detection while the vehicle is running and regular vehicle inspections on pre-arranged dates. In the event of vehicle trouble, immediate professional consulting is available, and you may conveniently make reservations for repair at the time and location of your choice.

Navigation

Best routes suggestions based on live analysis of the road network. If the navigation system is unable to find a particular destination, it will automatically connect to the Internet and search for related information

Concierge(paid service)

Fumbling with the navigation device while driving can be risky. With BlueLink, all you have to do is just push the BlueLink button and ask the operator for your destination. Then the destination is automatically set up, and you can continue to enjoy a safer and more convenient driving experience.

- Basic service(free for 5 years from initial subscription): remote control, safety security, vehicle management, navigation. - When the free basic service period ends, customers are switched, with their consent, to the charged service(KRW1,000/month).
