Accent

Excellence is expected.

The all-new Accent

Good looks are just the start of the story.

With its smart, modern lines, the all-new Accent says a lot about you and your individual sense of style. You are very practical and so is Accent because it gives you generous amounts of interior space. It also comes with a choice of engines and six-speed transmissions that are renowned for their power, reliability and fuel efficiency. And when it comes to the all-important issues of safety, Accent is equipped with a wide range of advanced features that deliver comprehensive protection. Inside and out, Accent is a reflection of Hyundai's passion for engineering excellence.

My style.

Some lines are made to divide and separate. But some lines unite, like the graceful and powerful lines of the new Accent. Accent has a universal and enduring appeal that cuts across all lines and age groups. Accent unites various design elements into a cohesive, beautiful shape so that everyone can agree: That is great design and that's the power of Accent, giving perfect expression to your own individual sense style.

I drive.

With Accent, there's no discussion about who gets to sit in the driver's seat. Throttle down and watch the road open up. Accent is a true driver's car delivering levels of performance and handling that exceed expectations in the family car category. It gives you everything you have ever wanted in a car—and much more. The style is strong and confident, equal to the best in the business. It's the look of a winner.

Sporty, aero-sculpted front design

Projection headlamps & projection fog lamps

LED Rear combination lamps

Outside mirrors & repeaters

Rear lip spoiler

16" alloy wheels

Power sunroof

Design.

The ordinary transformed into the extraordinary: That's the beauty of Accent as it takes the family car to an entirely new level. It employs the very latest LED and projection technologies on the front lighting package to maximize visibility and make a high-tech statement. Chrome detailing on the front grille and around the fog lamps add a noble touch.

Interior.

On the road, Accent serves as your office, your home away from home, your business lounge and entertainment centre. Well-insulated from outside noise, the interior is a well-appointed, multi-functional space where you can feel comfortable, secure and perfectly relaxed. All touch points and visual cues look and feel familiar for intuitive operation. Materials have been carefully selected for their aesthetic qualities but at the same time meet the highest durability standards.

Steering wheel includes remote control functions for audio, cruise control and Bluetooth

Supervision cluster

The Supervision cluster, with its circular rev counter and speedometer, features white backlighting for razor-sharp clarity and readability. Includes an integrated 3.5-in monochrome display with trip computer, refueling calculator and oil change reminder.

5.0" Multimedia display

The multi-functional color LCD provides a touch-screen interface for rear camera image, time/date, MP3 player status, AM/FM radio tuning, RDS and supports Bluetooth 4.0.

Automatic climate control

Simply set the digital readout to the desired temperature and the powerful blower provides cooling, heating and ventilation to keep you perfectly comfortable regardless of the outside conditions.

The fun factor.

Driving Accent is meant to be a magical experience. Because every inch of Accent is engineered to put the fun back into driving. With Accent, you can rediscover the pleasure of going for a leisurely drive and exploring new places. Accent is for romantic couples seeking memorable moments to share. Accent is perfect for business because it has the power to transform the daily commute into a small adventure. Above all, Accent is practical: It's surprisingly spacious and offers loads of cargo space, handy for those long family trips. And when it comes to performance and safety, Accent checks all the boxes, leaving nothing to be desired.

Performance.

Accent comes with a choice of powertrains to suit personal requirements. Whichever you specify, you can always depend on Accent to deliver impressive and reliable performance. Accent adopts tried and true technologies like variable intake systems that let the engines adjust their breathing to power demand, six-speed transmissions and multi-point injection for maximum fuel economy.

Gamma 1.6 MPi Gasoline	Kappa 1.4 MPi Gasoline	Ull 1.6 Diesel with VGT
123 ps/6,300rpm	100 ps/6,000rpm	128 ps/4,000rpm
15.4 kg-m/4,850rpm	13.5 kg-m/4,000rpm	26.5 kg-m/1,500-3,000rpm
		

6-speed automatic transmission
You will hardly notice this 6-speed gearbox doing its work. Automatic shifting is quick, smooth and quiet but also very convenient. Its efficient design helps maximize fuel economy.

6-speed manual transmission
For drivers who put economy above all else, the 6-speed manual is the perfect choice. Clutch operation is easy and predictable and as you shift through the gates, there's a nice, precise feel.

Front disc brakes
To ensure maximum stopping power, every Accent is equipped with 15-inch front disc brakes, a vacuum brake booster and an anti-locking brake system.

Safety.

From the moment you step inside Accent, you experience that wonderful feeling of being well-protected. More than a feeling, it's a fact. Accent protects you and your loved ones with some of the most advanced safety technologies available in the automotive industry today.

6-airbag system

Driver and front passenger are protected by two front airbags and two side airbags. Side curtain airbags running the length of the cabin improve head protection and increase the total airbag count to six.

Electronic stability control

ESC can detect skidding and using computerized technology, it will automatically apply the brakes to individual wheels to counter the loss of directional control, help maintain vehicle stability and reduce the risk of a collision.

Static bending light

Pioneered by Hyundai on its 2003 NEOS-II concept car, this innovation uses the turns of the steering wheel to turn auxilliary lamps on and off thus illuminating dark side areas covered by the headlamps.

Hillstart assist control

Stopping and starting on very steep road can be stressful and potentially dangerous. HAC prevents the car from accidentally rolling backward whenever the brake pedal is released on a hill.

Auto cruise control

Set the desired speed and the automatic feature takes cruise control to the next level by automatically braking and resuming acceleration to ensure that a safe distance is always kept between you and the vehicle ahead.

Emergency stop signal

Capable of distinguishing between normal and emergency braking conditions, this feature will automatically start flashing your brake lights when sudden heavy braking is detected thus warning drivers of a dangerous situation ahead.

Features

Smart key

No more fumbling through your pockets or purse. If the key is with the person, it enables push-button start and remote locking/unlocking of doors and trunk.

15" wheel covers

15" alloy wheels

16" alloy wheels
