

AZERA

Timeless Pioneer

AZERA embodies the harmony of a bold, dignified design and technology ahead of its time.
It offers an unparalleled driving experience in a class of its own, for those who seek to stay ahead.

More details

The most desirable typology.

Beautifully shaped with large sedan proportions,
the all-new AZERA exudes more elegance than ever before.

Exterior

The futuristically designed horizontal headlamp, combined with the voluminous body outline, adds a fine touch to the flagship sedan’s majestic aura.

Parametric Pattern Grille / Horizontal LED lamp (Seamless Horizon Lamp) / Full LED Headlights (Projection Type)

Frameless Door

Auto Flush Door Handle

LED Rear Combination Lights

Interior

Trimmed with high-end materials, the wrap-around interior provides passengers with their own oasis on wheels – one that’s both cozy and stylish.

Wraparound Architecture / Interactive Ambient Mood Lamp

Nappa Leather Seat

Mono-post headrest

Designed with today's drivers in mind, AZERA comes with pleasant details that are stylish, yet practical.

Integrated Display (12.3-inch Cluster/ 12.3 Inch Navigation)

Bezel-less Inside Mirror

Rear Seat Center Console Armrest

Convenience

The interior space is structured to upscale convenience, providing passengers with both emotional and physical comfort.

Rear Reclining Seat / Rear Ventilation Seat

Front Center Console

Front Console UVC Sterilization Lighting

AZERA comes equipped with a generous array of considerate features designed to meet and exceed the needs of consumers.

Column-Type Shift by Wire (SBW)

Smartphone Wireless Charging

Power Rear Side Window Sunshade

Power Rear Window Sunshade

AZERA was designed to be smarter than ever to keep up with the complex lifestyles of today’s consumers. Smart and progressive technologies installed throughout the vehicle make the ride more enjoyable.

Infotainment System ccNC (connected car Navigation Cockpit)

12-inch Head-up Display (HUD)

BOSE Premium Sound System
10.25-inch Full-touch Air Conditioning Controller (with Haptic Function)

Interactive Pixel Lights

Performance

The high-performance powertrain provides a comfortable and stable driving experience.

Smartstream G3.5 GDI			
300	Maximum Power	36.6	Maximum Torque
	PS/6,000 rpm		kgf-m/5,000 rpm

Predictive Gear-shift System (PGS)
Improves driving safety and comfort by predicting acceleration/deceleration conditions and shifting to the optimum gear in combination with ADAS navigation and radar signals.

Hybrid

The all-new AZERA Hybrid comes with e-Motion drive to provide both driver and passengers a satisfyingly smooth and dynamic drive.

e-Comfort Drive

When passing speed bumps, this hybrid technology manages the motor to reduce vehicle shaking and provide a smooth ride on an uneven road.

When accelerating, the hybrid system controls the vehicle's motion such that the driver experiences less shaking and more linear acceleration.

Smartstream G1.6 T-GDi HEV			
180	Maximum Power PS/5,500 rpm	27.0	Maximum Torque kgf-m/1,500~4,500 rpm

e-Dynamic Drive

When the vehicle approaches a turn, the hybrid system regulates the vehicle's movement to execute torque vectoring while simultaneously maintaining the ideal level of tire grip for dynamic handling performance.

During overtaking acceleration, this function provides a quick acceleration response and improved torque performance.

Safety

AZERA's host of advanced technologies comes in handy in a multitude of daily situations, providing simpler, safer, and smarter solutions.

Hyundai SmartSense

More details

Forward Collision-Avoidance Assist 1.5 (FCA 1.5)

Forward Collision-Avoidance Assist 1.5 (FCA 1.5) monitors your surroundings and warns you if there is a risk of collision. After the warning, it automatically assists with emergency braking if the risk of collision with the target increases (e.g. a leading vehicle which suddenly slows down, a vehicle, a PTW, a pedestrian or a cyclist in the front). If the risk of collision with an oncoming vehicle or a PTW increases while turning left at an intersection or if the risk of collision with an oncoming vehicle increases while driving in the lane, it automatically assists with emergency braking.

Blind-Spot Collision-Avoidance Assist (BCA)

Blind-Spot Collision-Avoidance Assist (BCA) warns you if there is a risk of collision with a rear side vehicle in the blind-spot while changing lanes. When forward exiting a parallel-parking spot, it automatically assists with emergency braking if there is a risk of collision with a vehicle approaching from behind.

Safe Exit Assist (SEA)

Safe Exit Assist (SEA) warns you if there is a risk of collision with a vehicle approaching from behind when an occupant opens a door to exit the vehicle after coming to a stop. When the driver presses the Electronic Child Lock button to drop off a passenger in the rear seat, the electronic child lock remains locked to help prevent the door from opening if the risk of collision with a vehicle approaching from behind increases.

High Beam Assist (HBA)

High Beam Assist (HBA) automatically adjusts the high beams by detecting ambient light and illuminance, such as a lamp of an oncoming vehicle or a preceding vehicle.

※ Operates at a vehicle speed of 40 km/h or higher (lower operating speed compared to previous specifications).

More details

Smart Cruise Control (SCC)

Smart Cruise Control (SCC) helps maintain distance from the front vehicle and drive at a speed set by the driver. Automatically stops when the front vehicle stops and starts automatically when the front vehicle departs within a short time.

Lane Following Assist (LFA)

Lane Following Assist (LFA) helps center the vehicle in the lane.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

Rear Cross-Traffic Collision-Avoidance Assist (RCCA) provides a warning if there is a risk of collision with an oncoming vehicle on the left or right side while reversing. After the warning, it automatically assists with emergency braking if the risk of collision increases.

Remote Smart Parking Assist (RSPA)

Remote Smart Parking Assist (RSPA) helps the driver to park or exit a parking spot remotely. It automatically assists with steering, accelerating, decelerating, and shifting by using the vehicle's sensors.
