

CRETA

Spotlight in motion.

Designed for those who are always on the lookout for conquering new challenges. Quickly adapt to changes. Turn on your light and shine. Be the spotlight on the path to your future.

See the spotlight.

Designed to be different in the midst of urban mobility. Its Parametric Jewel Pattern Grille & Hidden-type LED DRL, as well as the 17-inch Diamond Cut Alloy Wheel gives Hyundai Creta its bold, center-of-attention character.

10.25-inch Full TFT LCD Meter Cluster

8-inch Display Audio with Smartphone Integration

Within the spotlight.

Step inside and experience it for yourself. The 10.25-inch Full TFT LCD Meter Cluster technology and 8-inch Display Audio are integrated with your smartphone, giving you a personal touch on every journey.

The classy convenience.

The ultimate flexibility & comfort.

Leatherette Seats

60:40 seat

Hyundai SmartSense

Forward Collision-avoidance Assist (FCA)

This feature warns the driver when the system detects a risk of a front-end collision such as with pedestrians or a vehicle that suddenly slows down or stops. If the collision risk increases after the warning, the system will automatically assist by applying emergency braking.

Lane Following Assist (LFA)

The front camera tracks lane markers and helps keep the vehicle safe in the middle of the lane.

Lane Keeping Assist (LKA)

The front view camera detects lane markings (by the roadside) to monitor the vehicle's position in its starting lane. The system will warn the driver when the car leaves the roadside, without using the turn signal and automatically steer the wheel to prevent it from diverting from its current lane.

Hill-start Assist Control (HAC)

When starting the vehicle from a stop on an incline, the HAC prevents the accidental rollback that can occur after the brake pedal is released.

Blind-spot Collision-avoidance Assist (BCA)

BCA monitors your blind spot while driving. When a vehicle is detected in the vicinity of your car, the LED on the rearview mirror will light up, giving a warning and automatically braking if needed.

Rear View Monitor (RVM)

RVM makes sure it is safer when reversing or parking. The rear camera will monitor the rear area of the car.

Dual airbag system (Driver & Passenger)

This feature serves as a support system. Drivers must stay focused and be careful while driving.

Impressive performance.

Equipped with a 1.5L Smartstream engine with an Intelligent Variable Transmission (IVT) system, the Hyundai Creta delivers tough, responsive, and efficient performance. Hyundai Creta is also provided with a Drive Mode feature that enables drivers to choose the most suitable driving style for them.
