

# SANTA FE

# Make Quality Time

There is a different car for each kind of family.  
And all of them have one name: the All-New Santa Fe.

# Celebrate Diversity

Every family is different. To build the perfect family car, you have to understand every single family like we do. The All-New Santa Fe was built to fit all varieties of the modern family – no matter how it looks like.

# Celebrate Togetherness

We know that nothing is more important than spending quality time with family and friends. That's why the All-New Santa Fe gives you the comfort and freedom to enjoy those precious moments with your loved ones. Anytime, anywhere.

# The Perfect Family Car

Family cars don't need to be boring. A wide cascading chrome grille and 19-inch alloy wheels make for the SUV's new unique and bold design. Composite lights also give the car a high-tech allure, ready for family adventures.

# Load your life with quality time

Roomy interiors with increased legroom and plenty of space in the trunk offer all the comfort you need for greater moments with your family.

Best in class Second Row Space

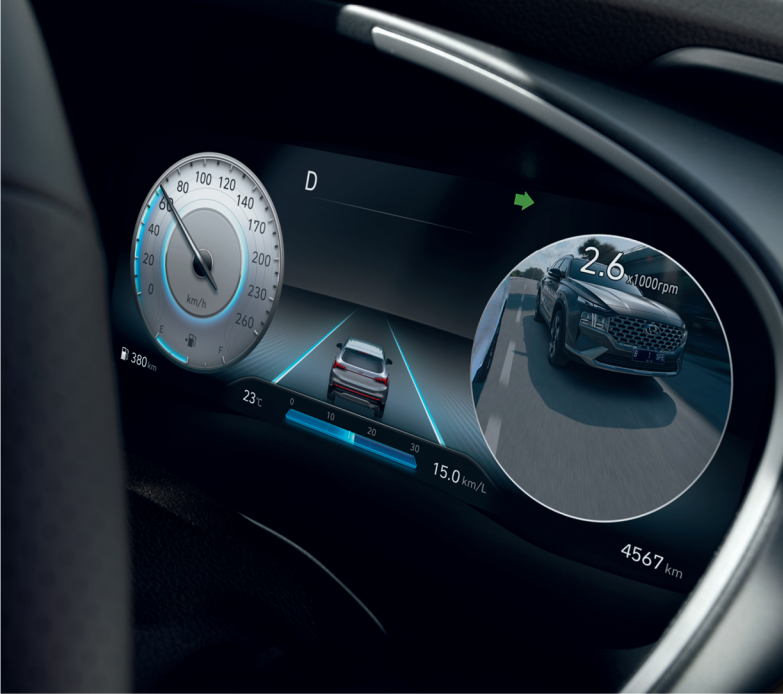

# Making every day comfortable

Enjoy a smooth and comfortable drive with the Santa Fe's 12.3" Full LCD Cluster & Blind-spot Viewing Monitor, helping you see additional viewing points for a safer driving experience.

It also comes with an 8" Infotainment system and a Wireless Phone Charger, giving you the convenience you long for in an SUV.

12.3" Full LCD Cluster & Blind-spot Viewing Monitor

8" Infotainment System

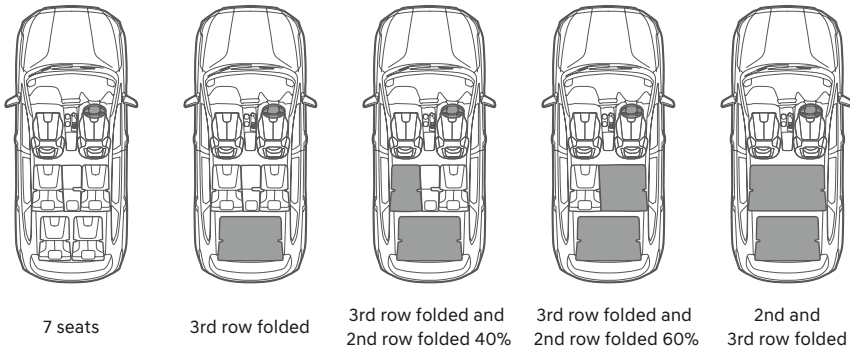

Wireless Phone Charger

2nd and 3rd Row Seats & Space

One-Touch Walk-in & Folding

The toughness and flexibility of the Santa Fe make it a family SUV that you can rely on for your every need. Larger luggage space and spacious legroom ensure every trip is always comfortable for you and your family.

New Body Platform

The new frame base used in Santa Fe maximizes vehicle stability and provides more luggage space, as well as legroom in the second and third rows. The new platform also improves safety in the event of a collision thanks to the use of Advanced High-Strength Steel and hot stamping.

2nd Row Leg Room (7seats)	3rd Row Leg Room	Cargo Capacity (7seats, 3rd row folded)
1,040mm	746mm	max 782ℓ

Santa Fe has a variety of seat arrangements, as well as comfort features to accommodate everyone freely. Just by pressing the button located on the seats in the second row, you can fold or slide them to get into the third row easily. With the new layout, Santa Fe provides more space in the second row as well as in the luggage room.

# Smart power tailgate

With this feature, you can easily put as many items as you want in the cargo space. Just keep the smart key in your pocket then stand in front of the tailgate for 3 seconds until the rear door opens by itself. You can also set how fast or slow the tailgate opens.

# Smart Features for a More Convenient Drive

Santa Fe is designed to minimize the risk factors around you while driving.

## Surround View Monitor (SVM)

Surround View Monitor (SVM) A multi-camera system provides a 360-degree view around the vehicle to assist the driver in parking situations.

Being prepared involves detailed and meticulous care. Santa Fe's Advanced Driver Assistance System considers the various conditions a driver might unexpectedly face to undertake complex decisions or minimize mistakes.

**Blind-spot Collision Warning (BCW)**

Keeping all eyes on the road, the radar-based system detects the proximity of vehicles in the blind spots and triggers both visual warning signals and acoustic alerts to keep you aware of the traffic situation around you even when you are not looking.

**Parking Distance Warning (Forward & Reverse)**

The Forward/Reverse Parking Distance Warning system assists the driver during parking by alerting them to objects in front or behind the vehicle.

**Blind-Spot View Monitor**

Aside from the warning that the BCA provides, the Blind-Spot View Monitor will provide additional view for the driver when switching lanes by displaying it in the instrument cluster.

# Easily controlled Drive Mode

Santa Fe's driving performance helps you adjust to various types of terrain for a smoother drive.

## 2.2 CRDi Diesel Engine

202	Maximum Power ps/3,800 rpm	440	Maximum Torque N·m/1,750~2,750 rpm
-----	-------------------------------	-----	---------------------------------------

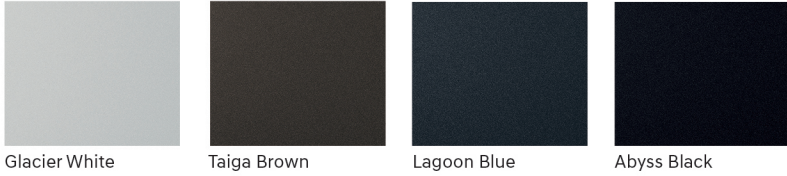

## Drive Mode

Easily turn the dial to choose the mode that suits you best: COMFORT for everyday driving, ECO for optimal fuel efficiency, SPORT for faster acceleration, or SMART which automatically adjust gear-shifting intervals based on driving patterns.
