People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.

A side-profile photograph of two cars, a silver sedan and a white hatchback, driving from left to right on a road through a dense forest. The background is heavily blurred to convey a sense of high speed. Sunlight filters through the trees, creating a dappled light effect on the road and foliage. The silver car is in the foreground, and the white car is slightly behind and to the right.

TAKE THE WHEEL, TAKE COMMAND OF THE ROAD AHEAD

There isn't simply one thing that sets the i40 apart from other vehicles on the market. It's a blend of comfort, technology and performance-related innovations that combine to create a unique driving experience. The bolder front grill with chrome treatment and sleeker exterior body heighten your confidence. Upgraded powertrain and fuel efficiency adds to greater overall performance.

TAKING YOUR JOURNEY TO THE NEXT LEVEL

i40 is the perfect expression of your individuality and preference of finding your own road. New features including LED rear lamps, 18" alloy wheels and aero-curtain treatment to the bumpers all come together to make a statement that turns heads.

POWERFULLY ATTRACTIVE, BEAUTIFULLY ACTIVE

We understand your desires, your needs and the fact that there is no such thing as enough when it comes to satisfaction. i40's cabin is soothingly quiet, while the impeccably-tuned chassis delivers a smooth and stable ride. The steering and the suspension systems have been fine-tuned to provide comfort in an active lifetime journey.

FAST VS SMOOTH EXHILARATION VS RELAXATION

The road gives us many opportunities to create everlasting memories and i40 is the perfect companion for the journey of a lifetime. Smooth and comfortable, providing exhilaration at every curve, every mile. The power-packed engines offer true driving pleasure whenever and wherever.

EMBRACING BEAUTY WITHOUT SACRIFICING

With its refined exterior lines and sculpted front end, i40 shatters any preconceptions that one might have about needing to sacrifice style for versatility. The cabin offers ample seating for 5 adults and abundant luggage capacity, taking you to your destination in comfort and style.

A FURTHER UPGRADE FOR A STYLISH ADVENTURE

The improved i40 surrounds you and your passenger with comfort. The premium audio system provides exceptional sound in the cabin space with intuitive, and direct interface. Added storage space in the rear armrest holds a variety of items. And don't forget the stylish door scuffs.

RECLAIM YOUR DOMAIN

i40's cabin allows you to lay claim to everything a driver desires. Start with the acoustically tuned audio system that creates an immersive audio experience in the cabin. Then move your fingers across the handle and you'll find steering wheel remote control systems that let you take command of a variety of functions without the distraction.

Smart key
i40 automatically detects your smart key when you are in the vicinity of your vehicle. A simple press of a button located on the door handle is all it takes to unlock the car, leaving your hands free to hold the perfect cup of coffee.

Audio system
The standard audio system with 6 speakers, an AM/FM radio and CD player with MP3 playback capability. The premium audio system with an external power amplifier and sub-woofer brings premium sound to the cabin.

Steering wheel remote controls
Designed to make driving more convenient and safer, the multi-function steering wheel features buttons that let the driver adjust the settings of the audio system, ensuring that his or her hands stay on the wheel.

Integrated memory system (IMS)
The driver's Integrated memory system (IMS) is a handy option for remembering his or her favorite driving positions for maximum comfort.

4.2" color TFT LCD
A small marvel of electronic engineering, the 4.2" color TFT LCD brings unprecedented clarity and brilliance to information display.

INTUITION, INNOVATION, INSPIRATION ALL COME TOGETHER IN THE i40

i40's surfaces are finished in a sophisticated color scheme characterized by muted, carefully matched shades, while key touch points have subtle textures that stimulate your senses. A variety of seat options and functions comfortably hug your body just like the i40 hugs the road.

Driver's seat adjustment system
Adjustable in 10 different ways, the electrically controlled driver's seat includes a lumbar support that promotes greater comfort, alertness and safety.

Electric parking brake (EPB)
The compact and convenient parking brake frees up precious cabin space. The button switch is computer linked so it's smart.

Front seat ventilation system
How to keep your clothes neat and crisp while driving on hot muggy days? Stay cool and dry by ordering the seat ventilation system available for the driver and front passenger seats.

Glove box cooling
The glove box comes with a cooling function for drivers and passengers to enjoy pleasantly cooled refreshments on the road.

Sport bucket seats
Designed specifically for young and young-minded buyers, the sports bucket seats come with improved side bolsters and project pure dynamism. Available with the black interior only.

LET THERE BE LIGHT

It's been said that keeping things out in the open is key to a healthy relationship. All the more reason to get in your i40, immediately retract the panorama sunroof and start enjoying every ray of excitement that shines through with warmth and clarity. With more than enough luggage space to hold everything you need, your journey begins in style and without hassle.

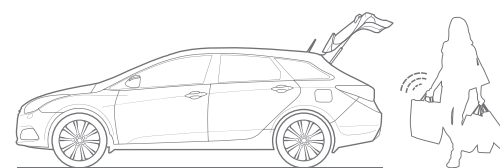

JUST THE PERFECT COLOR

From the dashboard to the floor, every nook and cranny is carefully crafted with your convenience in mind. A variety of interior color combinations that have been skillfully matched with exterior paintwork to harmonize with the hues and moods of the 4 seasons.

SPACIOUS ENOUGH TO FIT ALL YOUR DESIRES

When it comes to space, the i40 un-rivals all in its class with its spacious and versatile luggage space. With the release of a simple lever, backrests easily fold into the floor to create an extended luggage space. Whether you want to go outback with your mountain bike or have heavy load of luggage, i40 has got you covered.

Smart tailgate system

The smart tailgate system automatically opens the tailgate for you, just wait 3 seconds behind the i40 with your key in your pocket and voila! Say goodbye to putting your groceries on the floor to open the tailgate with this innovative and convenient feature.

Seat folding system (6:4 type)

i40's rear seats can disappear in seconds. The rear backrests easily fold into the floor with the simple release of a lever in order to free up more luggage space, which can come in handy in a number of situations.

Seat folding system (Flat type)

Rear seat backrests fold flat into the floor while the luggage rail system helps keep your luggage safely secured.

Wagon luggage capacity

i40 offers minimum 553 to maximum 1,719 liters of luggage capacity, and luggage storage pockets have been applied for additional convenience. It's surprising just how much you can fit into the back of your i40.

Sedan luggage capacity

At 505 liters, plus 20 liters under the luggage board (with Temporary mobility kit (TMK)), it's among the most spacious in its class.

i40 TAKES YOU AWAY AND BEYOND

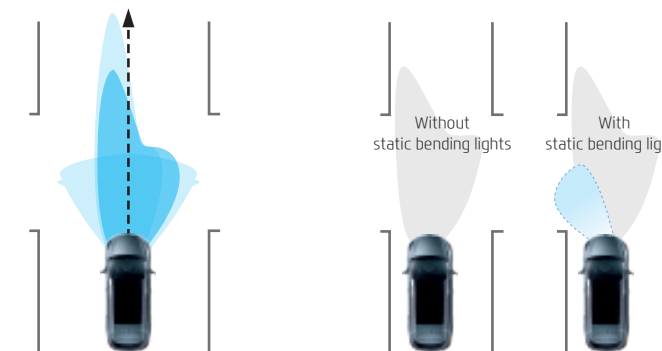

i40's upgraded performance gives you a boost of power and capacity in everyday actual driving range. The sophisticated 2.0 gasoline engine and high-powered 1.7 diesel engine feature some of the most advanced technologies available to ensure i40 delivers the best fuel economy in its class.

*Depending on the region, i40 is equipped with either MPI or GDI 2.0 gasoline engine.

SUDDEN SURPRISES AND OBSTACLES, NOW OBSOLETE

When you are traveling, you encounter obstacles and adverse situations that can take you by surprise. Not to worry, i40 comes with many safety features designed to keep you out of these situations. So sit back relax and enjoy the mind bending curves.

Adaptive front lighting system (AFLS)

Adaptive front lighting system (AFLS) uses a pivoting mechanism to continuously aim the headlamps in the direction of travel with, low/high bi-fuctional mode.

Static bending lights (SBL)

Static bending lights turn on when you activate the right or the left turn signal while turning or taking a bend. It helps illuminate pedestrians and obstacles on the road.

Advanced Traction Cornering Control • This active cornering feature, utilizing capabilities from the Electronic stability control (ESC), allows i40 to improve dynamic cornering during more enthusiastic driving.

A LITTLE CAN GO A LONG WAY

i40's perfectly tuned engines and transmissions are designed to take you further than ever before between fill-ups. 7-speed DCT automatic transmissions and variable valve timing are just a few of the numerous technical innovations that help squeeze more energy out of every drop of fuel and putting the power right where it should be, under your right foot.

7-speed DCT automatic transmission
A dual-clutch transmission (DCT), sometimes called a twin-clutch transmission or a double-clutch transmission, is a type of automatic transmission that uses 2 separate clutches for odd and even gear sets.

*DCT is available for 1.7 CRDi

2.0 GDi Gasoline engine (DOHC with DCVVT) () Sedan

Maximum power 164ps (165) / 6,200rpm

Maximum torque 20.7kg·m (20.8) / 4,700rpm

2.0 MPi Gasoline engine (DOHC with DCVVT) () Sedan

Maximum power 152ps (153) / 6,200rpm

Maximum torque 19.6kg·m (19.7) / 4,000rpm

1.7 CRDi Diesel engine (DOHC)

Maximum power 141ps / 4,000rpm

Maximum torque 34.7kg·m / 1,750~2,500rpm

6-speed automatic transmission
The automatic transmission, with an enhanced grip thanks to the ergonomic design, ensures maximum driving satisfaction with its high-precision response and exceptional durability.

6-speed manual transmission
For driving purists who prefer to do their own shifting, Hyundai offers a 6-speed manual transmission. Economical, quiet, ultra-smooth and durable.

Paddle shifters (standard with automatic transmission)
Enjoy rapid-fire upshifts and downshifts thanks to steering column-mounted shift paddles whose design is inspired by the shifters found on high-end sports cars.

Hot stamping method

Advanced high-strength steels are used in key body areas to maximize strength. Since the steel is so hard, it must first be pre-heated to 900 °C before stamping. This Hyundai innovation offers more protection to the driver and passengers in the event of a collision.

Advanced high-strength steels

No ordinary, run-of-the-mill steel, the advanced high-strength steels are high performance special steel alloy applied to critical areas of the body's shell where additional strength reinforcement is required. The benefit is superior crashworthiness.

Steel multi-coned structure and hood inner frame

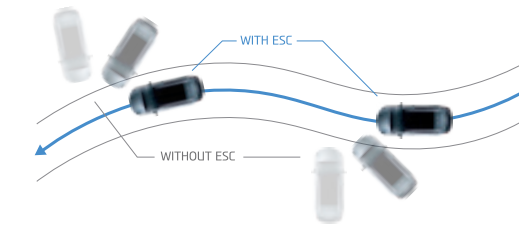

Applied to the hood, this novel structure is highly effective in absorbing impact forces and represents a major advancement in reducing the risk of serious head injuries in pedestrian-car collisions.

Brake assist system (BAS)

Advanced electronics are capable of making near-instantaneous calculations about road conditions, vehicle weight distribution and the correct amount of braking force in order to bring the vehicle to a safe stop within the shortest distance possible.

WHEN IT COMES TO i40 THERE IS NO ROOM FOR DOUBT

Advanced high-strength steel adds an additional degree of safety. Safety is further enhanced by sophisticated airbag technology and specially constructed crumple zones that absorb energy upon impact to minimize injuries in the event of a collision. All of this, combined with the rigidity of laser seam-welded joints helps diminish the impact of an unavoidable event.

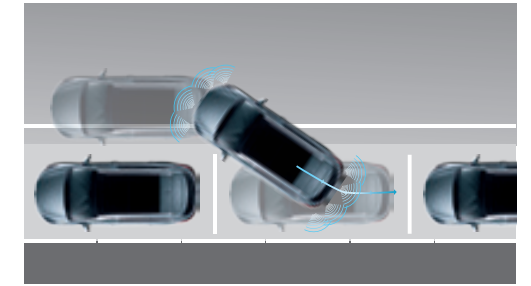

Electronic stability control (ESC)

Electronic stability control (ESC) continuously monitors vehicle directional stability and tire traction. If the system senses the car is about to skid and risks spinning out of control, ESC automatically applies the brakes to individual wheels as needed to keep the vehicle headed in the right direction.

9-airbag system

With up to 9 airbags available, including each driver and passenger airbags, 2 side curtain airbags and 2 front thorax-pelvis side airbags and 2 rear thorax side airbags at the outboard seating positions plus a driver knee airbag.

Front & rear parking assist system (PAS)

This optional system helps you park safely. Shift into reverse, and sensors in the front and rear bumpers will start to measure proximity when you're too close, you'll get an audible alert.

Electronic chromic mirror (ECM)

Electronic chrome mirror (ECM) automatically senses and reduces light intrusion from following vehicles, dramatically reducing eye fatigue.

Hill-start assist control (HAC)

This technology brings peace of mind and ends all anxieties about the vehicle rolling backwards when the foot is taken off the brake after a stop on a steep hill.

RELAXATION AT LAST

From your getaway and back to your home, i40 with its serene driving experience, variety of features and versatility in functions keep you relaxed throughout your trip. Confidence in build quality, pride in styling, pleasure, exhilaration and relaxation, all built into one fine vehicle.

HID headlamps

i40 can be ordered with high intensity discharge (HID) headlights which can bring out details in the road that would remain unseen by conventional headlights.

LED rear combination lamps

Sharp and precise, the wrap around rear combination lamps use an array of LEDs for maximum brightness and enhanced safety.

Wiper de-icer

A heating element embedded in the lower windscreen melts away ice and frees up frozen wipers.

LED high-mounted stop lamp

Maximum visibility and safety are ensured by mounting this safety lamp onto the rear spoiler and fitting it with an array of bright red LEDs.

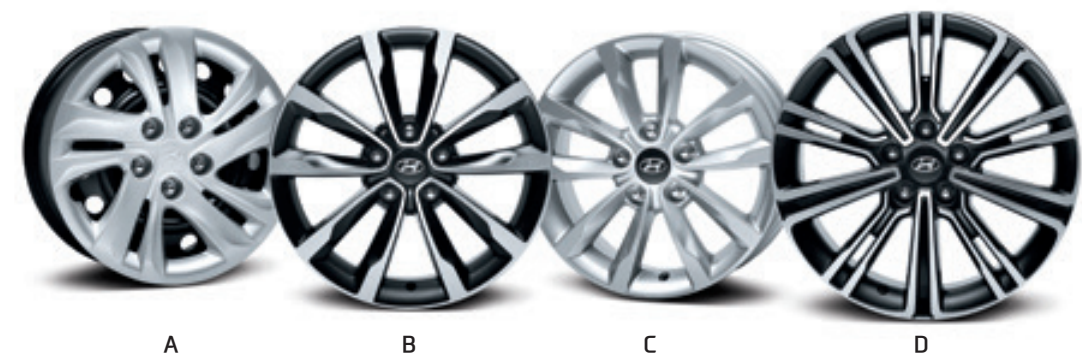

Matt finish

Chrome finish

Radiator grill

Along with the stylish headlamps, a bolder radiator grill contributes to the enhanced and glamorous looks of the front. Chrome-coated radiator grill is also available for a sharper look.

MAKE IT YOURS

A wide array of available options, packages and features lets you tailor the driving experience to a style that's truly yours.

Versatile, smart and spacious: the i40 is the go-to vehicle for all your travel needs - and the ideal partner for an exciting, active life.

Drive mode system

Drivers can optimize their drive mode based on feedback from the road and a variety of driving conditions. Drive mode system has different mode type depending on transmission.

Light control system

i40 gets a european-style light switch mounted on the crashpad, a location chosen after analyzing the results of research carried out by customer focus groups.

Full auto air conditioning system

Driver and front passenger have their own individual temperature controls. System is able to automatically maintain pre-set temperatures for the dual zones.

Air conditioning system

Simpler yet highly effective, the manual air conditioning system delivers outstanding cooling power at a very attractive price.

Supervision cluster

A small marvel of electronic engineering, the supervision cluster brings unprecedented clarity and brilliance to information display. Hit the engine start / stop button and, from a black screen, the system springs to life in a glorious rainbow of colors.

Auto cruise control

Loved by long-distance drivers, the auto cruise control is conveniently mounted on the steering wheel for quick engagement and disengagement. A gentle tap on the brake pedal will also turn off the system.

Bluetooth hands-free system

i40 can be ordered with a Bluetooth option which comes with steering wheel mounted controls and a built-in microphone. Interfacing seamlessly with Bluetooth-enabled phones, this hands-free solution promotes safer driving.

Front & rear seats warmer

Front seats feature 3-stage heated seat cushions and heated backrests. Rear seat cushions also feature a 2-stage heated seat cushions.

Connectivity (AUX, USB)

Connective ports are provided to connect most types of personal music players including USB memory devices.

Child anchors

The easy-to-use ISOFIX ensures the child seat securely anchored for maximum safety.

Luggage net & hook

Unsecured luggage can be a safety hazard. The luggage net provides a fast and easy solution.

BE SMART

Technology-rich and smart features which puts the pleasure back into driving also makes your daily commute something you can really look forward to. Features that free you up, so you can sit back and relax.

Heated steering wheel

The steering wheel comes with a heating function so that drivers can keep their hands nice and warm when driving in the cold winter.
