

The New
Hyundai ix20

HYUNDAI | NEW THINKING.
NEW POSSIBILITIES.

Roominess. Versatility. And a fresh new look. The new ix20.

The new ix20 shows that class-leading roominess need not come at the cost of style. And its fresh, dynamic design is backed up by new features and technological enhancements which make the driving experience even more enjoyable. So it's not just striking new looks that make the new ix20 so attractive.

The new face of space in a compact format.

The attractive lines of the new ix20 integrate seamlessly with the bold new hexagonal grille and sleek new projector headlamps. Together they create an overall dynamic impression, emphasized by the stylish new alloy wheels. The long wheelbase not only allows an impressively roomy interior, it also contributes to the attractively balanced proportions. At the rear, the new ix20 is identified by bright LED combination lamps.

The cabin of the new ix20 is finished in high-quality materials. Instruments and controls are designed and positioned for ease of operation.

Plenty of room for bright ideas.

The new ix20 is available with the kind of features and technologies you may not expect in cars of this class. The wide-opening panorama roof extends the feeling of spaciousness, while the audio and navigation systems will keep you entertained and on track wherever your journey may take you.

New generation audio and navigation system. The new audio system includes iPod connectivity, integrated My Music storage (1 GB) and AUX and USB ports. The navigation system has a 6.5" TFT colour touch screen that also functions as the display for the integrated rear view camera.

Heated steering wheel and seats. Nothing is more welcoming on a winter morning than heated seats and a heated steering wheel.

Panorama sunroof. The twin-panel roof creates a bright, airy ambience. At the touch of a button, the front panel tilts or slides open, adding the feel of open-air driving.

Interior space. With its 1600 mm high roofline and 2615 mm wheelbase, the ix20 offers more interior space than many larger cars, meaning families can travel in comfort even on the longest journeys.

Much more than just good looks.

You can configure the interior to carry passengers, cargo, or a mixture of both. A clever 60:40 fold & dive mechanism allows the rear seats to be folded flat into the vehicle floor, creating a class-leading total load space of 1486 litres. Powering the new ix20 is a range of upgraded petrol and diesel engines, available with 5-speed or 6-speed manual transmissions, or a new 6-speed automatic. Other practical features, like Rear Parking Assist and rear-view camera, make everyday driving easy and stress-free.

Rear parking assist. Reversing into confined spaces is simplified by parking sensors providing audible warnings of obstacles, and a rear camera that is monitored via the navigation screen or rear-view mirror.

Variable carrying capacity. The large load space accommodates 440-litres of luggage beneath the retractable load-cover. A rear seat sliding function opens up even more space for those tricky larger items.

Six-speed transmissions. Diesel engines have 6-speed manual transmissions, as does the 1.6 petrol engine, which can also be specified with a new, high-efficiency 6-speed automatic transmission.

Engine upgrades. Both petrol engines have been revised to deliver improved fuel efficiency, and there's now more torque available from the two diesel engines. All are Euro6 compliant.

So much choice. You decide.

We're all different, and we all have our own preferences and priorities. The new ix20 is available in a wide range of exterior colours, complemented by three interior colour packages. All have been created to help you add your own personal touch, which you can extend with your choice of optional equipment and accessories.

New Thinking. New Possibilities.

We, at Hyundai, are inspired by the passion to create cars that exceed your expectations. Dedicated to the way things should be, not the way they are. Looking for answers before the questions have been asked. We never stop searching for better solutions that help you get more out of life. It's just the way we are.

What does this mean for you? It means that the Hyundai you drive has been engineered to surprise you with its built-in quality. To compliment you with its striking design. To care for you, your family and passengers with its embracing strength. To minimize its impact on the environment. And to satisfy you with intuitive packaging that leaves nothing to be desired.

All of this being the product of new thinking that opens up a world of new possibilities.
