## Cautionary Statement with Respect to Forward-Looking Statements

In the presentation that follows and in related comments by Hyundai Motor's management, our use of the words "expect," "anticipate," "project," "estimate," "forecast," "objective," "plan," "goal," "outlook," "target," "pursue" and similar expressions is intended to identify forward looking statements.

The financial data discussed herein are presented on a preliminary basis before the audit from our Independent Auditor; final data will be included in HMC's Independent auditor's report. While these statements represent our current judgment on what the future may hold, and we believe these judgments are reasonable, actual results may differ materially due to numerous important factors. Such factors include, among others, the following : changes in economic conditions, currency exchange rates or political stability; shortages of fuel, labor strikes or work stoppages; market acceptance of the corporation's new products; significant changes in the competitive environment; changes in laws, regulations and tax rates; and the ability of the corporation to achieve reductions in cost and employment levels to realize production efficiencies and implement capital expenditures at levels and times planned by management.

We do not intend or assume any obligation to update any forward-looking statement, which speaks only as of the date on which it is made.
