

## Hyundai Motor Reports November 2019 Global Sales

- November sales total 392,247 units, down 2.8% y/y

**SEOUL, December 2, 2019** – Hyundai Motor Company today announced November global sales of 392,247 units, a 2.8 percent decline from a year earlier.

### **Korea Sales**

Sales at Hyundai's home market slid 1.5 percent year on year, totaling 63,160 units. The new Grandeur, also called Azera in some markets outside of Korea, led the sales in Korea following an introduction of face-lift model in November. Grandeur was ranked as the country's best-selling model last month with more than 10,000 deliveries in its debut month and it recorded over 40,000 pre-order bookings. All-new Sonata sedan also helped drive Korea sales together with its hybrid model.

Combined sales of Hyundai's SUV lineup totaled 20,813 units in Korea and sales of NEXO fuel-cell electric SUV sales reached its monthly record of 699 units last month.

### **Overseas Sales**

For markets other than Korea, sales declined 3 percent to 329,087 units compared with 339,237 units a year earlier as weaker sales in emerging markets offset brisk deliveries in advanced markets such as the US.
