

VELOSTER N

Makes the heart-pounding excitement of motorsports part of your daily routine

VELOSTER N

Awaken your instincts with N's bold, powerful performance.
Escape with the VELOSTER N.

VELOSTER N Full Option (Performance Blue, excludes wide sunroof)

Style

VELOSTER N's bold design powers you onto the city scene.
Turn heads.

A performance-optimizing design and fiery red trim give more power and character to this high-performance hot hatch back.

Wide radiator grille & air curtains

Rear diffuser with large air flow fins
Rear wing spoiler

19" alloy wheels & side sill

VELOSTER N Full Option (Performance Blue, excludes wide sunroof)

Space

Slip into the driver's seat and become immersed in the race track thrill.
Feel your heartrate increase with every touch of Veloster N's interior and the rising RPM.

The N Light Sports Bucket Seat grants the perfect fit for the driver while the tight grips on the gear shift and steering wheel provide superior control.

N DCT shift knob & boot

Sports steering wheel & paddle shift

N Light Sports Bucket Seat (N light with the N logo, Alcantara suede)

Supervision cluster display

VELOSTER N Full Option (Performance Blue, excludes wide sunroof)

Performance

VELOSTER N's impressive driving performance is powered by the N-exclusive 2.0 T-GDi engine, offering an authentic driving experience.

2.0 T-GDi Engine

275_{PS}

(250PS without Performance Package)

Discover the thrill of VELOSTER N's high-performance features, offering a dynamic driving experience.

Introducing the all-new N 8-speed wet dual-clutch transmission - Bringing to a larger audience the exhilarating experience of driving the high-performance N.

N DCT

N Grin Control System
The N Grin Control System comes with a choice of five distinct driving modes to match your driving situation: Eco, Normal, Sport, N and N Custom.

N-exclusive high-performance brakes & calipers with the N logo
Stopping is as important as speed when it comes to high-performance vehicles, and VELOSTER N's high-capacity braking system delivers stability in changing driving conditions.

Pirelli P Zero tires
The exclusively engineered high-performance Pirelli P Zero tires complement VELOSTER N's power.

Electronic Control Suspension (ECS)
The damping force of the shock absorber on each wheel is controlled according to changing road surfaces to ensure distinct performance in all driving conditions, both on race track and during everyday driving.

Variable exhaust valve
Shaped exhaust pipes and electronic variable valves give you a choice of quiet driving or sporty engine sound for different driving conditions.

N Corner Carving Differential
The driving power of wheels on either side is electronically controlled and distributed, ensuring acceleration without slippage when cornering.

N Power Shift (NPS)
NPS controls RPM to enhance acceleration and deliver greater torque when shifting - previously available only on manual transmissions.

N Grin Shift (NGS)
When greater acceleration is needed while driving, use the NGS button to overboost for 20 seconds and maximize engine performance and transmission response.

N Track Sense Shift (NTS)
When road conditions are ideal for dynamic driving and cornering, NTS automatically kicks in and selects the optimal gear and shift timing for a sporty driving experience and superior performance.

*The images of the Infotainment System screen are subject to change due to regular updates.

Hyundai SmartSense

The all-new VELOSTER N comes with more advanced, intelligent safety features that protect both driver and passengers from unexpected hazards.

Forward Collision Prevention Assist Alerts the driver of the potential for a forward collision with a pedestrian or cyclist or when the vehicle in front suddenly slows or stops. Also activates the brakes in the event of an impending collision.

Lane Keeping Assist Alerts the driver, while driving over a certain speed, if the vehicle veers out of its lane without the turn signal indicator being activated. If departure from the lane is detected, the system assists with steering to help prevent further deviation.

Rear Collision Prevention Assist Alerts the driver of the potential for a collision from the rear when the turn signal indicator is switched on for lane changes.

Driver Attention Warning This system monitors and displays the driver's attention level, issuing warning messages on the cluster display and sounding an alarm if the driver's level of alertness drops to "inattentive".

High Beam Assist (HBA) Automatically switches high beams on or off in consideration of vehicles in front going the same direction, oncoming traffic, and the brightness of surroundings.

Rear Cross-Traffic Collision Prevention Assist Monitors the areas to the left and right when the vehicle reverses and alerts the driver of the potential for a collision with any approaching traffic on either side.

Please adhere to the designated speeds on the road for maximum fuel efficiency.

- The above fuel economy was calculated based on standard driving conditions. Actual fuel efficiency may vary depending on road conditions, driving styles, cargo weight, maintenance conditions, and outside temperatures. - Some of the photographed vehicles in this brochure depict optional features for illustrative purposes and may differ from the actual vehicles. - The features, colors, and specifications stated in this brochure are subject to change based on improvements in the vehicle's exterior or performance. - The above engine performance data is based on the net value, which is a legal requirement applied by the Ministry of Land, Infrastructure and Transport from 1997 onwards. To produce the data, an advanced measurement method that takes into account the resistance of vehicle emissions was used. This method may generate results slightly lower than those generated by existing methods based on the gross value. - The leather upholstery partially consists of synthetic leather. - The vehicle colors printed in this brochure may differ from the actual colors. - The specifications of the rental vehicles may be partly different from those of other models. For detailed specifications, please check the price list catalogue for the relevant month. - The information in this brochure is based on the gasoline models, and the specifications may be partly different from those of the LPI models. - N-exclusive high-performance brakes can be noisy due to their performance characteristics, which is normal.

- Hyundai Motor vehicles are sold by Car Masters of Hyundai Motor Company's branches and dealers only at prices uniformly applied everywhere across the country to promote fair business practices. - The failure to use authentic parts and oil products (including engine oil and transmission fluid) recommended by Hyundai Motor Company and/or the use of defective fuel may critically damage your vehicle. - Please refer to the owner's manual for details about new technologies and features stated in this brochure.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For specification details by model, please refer to the monthly price table.

The advanced technology of Hyundai's BlueLink system helps keep both the driver and the vehicle safe in any situation.

BlueLink is always there to keep you safe, regardless of the location or time of day. Experience the unique joy of safe and comfortable driving.

Remote control

Forgot to lock the doors? No need to worry. BlueLink's Remote Lock/Unlock feature ensures your vehicle is protected.

Safety security

The BlueLink Center works 24 hours a day, 365 days a year. If an airbag opens due to an accident, the Center automatically detects your location and takes appropriate actions according to the situation, such as contacting the police, ambulance, insurance company, etc.

Vehicle management

Services include real-time trouble detection while the vehicle is running and regular vehicle inspections on pre-arranged dates. In the event of vehicle trouble, immediate professional consulting is available, and you may conveniently make reservations for repair at the time and location of your choice.

Navigation

This function enables the driver to conveniently search for destinations through voice command and suggests optimum routes based on an independent analysis of real-time traffic information. The driver can search a database of up-to-date information to find even newly created destinations.

* Free of charge for five years for customers who have purchased a vehicle and are applying for BlueLink membership for the first time: Remote control, Safety security, Vehicle management, Navigation. (Remote climate control is available on automatic transmission vehicles only.)

* Inquiries: Blue Link Kakao Talk Customer Service Center (enter "Blue Link" in Kakao Talk search screen and add as friend)
